REPORT OF THE DIRECTOR OF THE MANAGEMENT COMPANY FOR THE YEAR ENDED JUNE 30, 2025

Dear Investor,

On behalf of the Board of Directors, I am pleased to present **MCB DCF Fixed Return Fund** under *MCB DCF Fixed Return Fund* accounts review for the year ended June 30, 2025.

Economy Review

The fiscal year commenced on a strong footing as the government secured a staff-level agreement (SLA) with the IMF for a 37-month Extended Fund Facility (EFF) of USD 7.0 billion. Over the course of the period, Pakistan demonstrated fiscal and external discipline, successfully meeting key IMF program targets and benchmarks. Consequently, in March 2025, the IMF team reached an SLA with Pakistani authorities for the first review of the EFF, along with a new 28-month Resilience and Sustainability Facility (RSF), unlocking an additional USD 1.3 billion in funding.

The country posted a current account Surplus of USD 1.8 billion in the first eleven months of the fiscal year 2025 (11MFY25) compared to a deficit of USD 1.6 billion in the corresponding period last year. The major contributor towards improving current account was the remittances inflows which skyrocketed by 28.8% to USD 34.9 billion. Trade Deficit increased by 22.1% YoY as exports rose by 4.0% while imports increased by 11.5% from a low base. The country's external position improved with SBP's foreign exchange reserves increasing to USD 14.5 billion as of Jun-25 end compared to USD 9.4 billion at the end of last fiscal year. This was on account of current account surplus, timely bilateral rollovers and flows from IMF and multilateral sources. The local currency witnessed a modest depreciation as the USD/PKR depreciated by 1.9% to 283.8 during the fiscal year.

Headline inflation represented by CPI averaged 4.6% during FY25 compared to 23.9% in the corresponding period last year. This sharp decline was driven by the currency's stability over the past one year, which led to stable food and energy prices. Additionally, the large decline in wheat prices and base effect further contributed to the lower inflation figures.

Pakistan's Provisional GDP growth clocked at 2.7% in FY25 with Agricultural, Industrial and Services sectors increasing by 0.6%, 4.8% and 2.9% respectively. The Agriculture posted subpar growth due to high base effect and flood damaging cotton crop. Industrial and services sector growth recovered due to improvement in macroeconomic indicators. On the fiscal side, FBR tax collections rose by 25.9% in FY25, reaching PKR 11,722 billion—against the downward revised target of PKR 11,900 billion, reflecting a shortfall of PKR 178 billion. The shortfall is largely attributed to reduced tax collection from imports due to a slowdown in trade, sluggish growth and low inflation.

REPORT OF THE DIRECTOR OF THE MANAGEMENT COMPANY FOR THE YEAR ENDED JUNE 30, 2025

MCB DCFFRP IX was launched on April 08, 2025 with a promised return of 11.09%. The fund will mature on July 10, 2025.

MCB DCFFRP X was launched on May 02, 2025 with a promised return of 11.83%. The fund will mature on October 16, 2025.

Economy & Market – Future Outlook

Going forward we expect GDP growth to clock at 4.1% in FY26. Agriculture Growth is likely to clock at 3.9% as it would recover due to base effect. The lagged impact of interest rate decline would benefit industrial and services sector going forward which are expected to expand by 4.4% and 4.0% respectively.

The continuation of the IMF program is a key positive as it will allow us to tap funding from bilateral and multilateral sources. We expect SBP reserves to increase to USD 17.4 billion by year end on the back of timely bilateral rollover, and inflows from IMF and multilateral agencies. Our external position has improved which could allow Pakistan to consider re-entering the international capital markets to explore options such as Eurobonds, Sukuk, and Panda bonds.

Pakistan is on track to record the first annual surplus since FY11 on the back of rebound in exports and remittances along with controlled imports. We expect the trend to continue in the medium term. We could witness a measured depreciation in the currency as imports picks up following monetary easing. We expect USD/PKR to close Jun-26 around 304.

Headline Inflation will stay in low single digits due to decline in food prices and stable currency. The inflation would temporarily rise by the end of FY26 due to base effect. The average inflation in FY26 is expected to be 5.6%. Core inflation has been steadily declining due to stable currency and overall demand dynamics. We expect core inflation to gradually trickle down reaching low single digit by the end of next fiscal year.

On the fiscal side we expect the fiscal deficit to clock in at 4.0% in FY26, which would be the lowest level since FY2006. This marks the fourth consecutive year of budget deficit reduction since it peaked at 7.9% in FY2022. The reduction in finance cost would be a major reason for this reduction. Strict IMF target regarding primary surplus would also play its part in maintaining fiscal discipline.

The SBP has decreased interest rates by a cumulative 1,100bps since June-24 as interest rates have declined to 11.0% from a high of 22.0%. Enhanced external stability, coupled with easing inflationary pressures, created room for this monetary easing. Going forward, while inflationary pressures are likely to remain muted, further rate cuts shall be contingent on strength in foreign exchange reserves.

REPORT OF THE DIRECTOR OF THE MANAGEMENT COMPANY FOR THE YEAR ENDED JUNE 30, 2025

For debt holders, we expect Money Market Funds to continue to seamlessly mirror policy rates throughout the year.

Mutual Fund Industry Review

The Net Assets of the open-end mutual funds industry increased by about 43.1% during FY25 to PKR 3,684 billion. Total money market funds grew by about 44.4% since June 2024. Within the money market sphere, conventional funds showed a growth of 55.3% to PKR 977 billion while Islamic funds increased by 34.3% to PKR 912 billion. In addition, the total fixed Income and Fixed Rate funds increased by about 29.2% since June 2024 to PKR 1,242 billion while Equity and related funds increased by 92.3% to PKR 491 billion.

In terms of the segment share, Money Market funds were the leader with a share of around 51.3%, followed by Income and fixed return funds with 33.7% and Equity and Equity related funds having a share of 13.3% as at the end of June 2025.

Mutual Fund Industry Outlook

Money market funds should benefit from higher liquidity as they are ideal for investors with a short-term horizon and low risk profile. As economic recovery gains further traction and becomes broader based, the interest in capital markets particularly equities will continue to remain strong. Our operations remained seamless and given our competitive edge in digital access and online customer experience, we are prepared to get benefits of the growing number of investors available online.

* 4 نان-ایگزیکٹو ڈائریکٹرز؛

* 3 انڈپینڈنٹ ڈائریکٹرز؛ اور

* 1 ایگزیکٹو ڈائریکٹر (سی ای او)۔

پاکستان مال سال 2011ء کے بعد سے پہلا سالانہ سسرپلس ریکارڈ کرنے جا رہا ہے، جس کے عوامل برآمدات اور ترسیلات میں بحالی اور محدود درآمدات ہیں۔ ہمیں اُمید ہے کہ درمیانی مدت میں یہ رجحان جاری رہے گا۔ اگر درآمدات میں تیزی آئے اور اس کے نتیجے میں مالیاتی تسہیل ہو تو روپے کی قدر میں بتدریج گراؤٹ ہو سکتی ہے۔ جون 2026ء کے اختتام پر روپے کا ڈالر کے مقابلے تناسب تقریباً 304 ہونے کا امکان ہے۔

اشیائے خورد و نوش کی قیمتوں میں کمی اور روپے میں استحکام کے باعث ہیڈلائن (مجموعی) افراط زر کم سطح (ایک ہندسے پر مبنی عدد) پر رہے گی۔ مالی سال 2026ء کے اختتام تک base اثر کے باعث افراط زر میں عارضی طور پر اضافہ ہوگا۔ مالی سال 2026ء میں اوسط افراط زر 5.6 فیصد ہونے کا امکان ہے۔ روپے کے استحکام اور مجموعی طلب کے عوامل کے باعث بنیادی افراط زر میں مسلسل کمی ہوتی رہی۔ ہمیں اُمید ہے کہ اگلے مالی سال کے اختتام تک بنیادی افراط زر بتدریج کم ہو کر ایک ہندسے پر مبنی عدد تک پہنچ جائے گی۔

مالیاتی جہت میں ہم سمجھتے ہیں کہ مالی سال 2026ء میں مالیاتی خسارہ 4.0 فیصد ہوگا، جو مالی سال 2006ء کے بعد سے کم ترین سطح ہوگی۔ چنانچہ یہ بجٹ خسارے میں کمی کا چوتھا مسلسل سال ہوگا، کیونکہ یہ مالی سال 2022ء میں 7.9 فیصد کی بلند ترین سطح تک پہنچ گیا تھا۔ اس کمی کی سب سے بڑی وجہ مالیاتی لاگت میں کمی ہے۔ مالیاتی نظم و ضبط برقرار رکھنے میں بنیادی سسرپلس سے متعلق آئی ایم ایف کے سخت اہداف بھی اپنا کردار ادا کریں گے۔

ایس بی پی نے سود کی شرحوں میں جون 2024ء سے لے کر اب تک مجموعی طور پر 1,100 بی پی ایس کمی کی ہے، چنانچہ شرحیں 22.0 فیصد کی بلند سطح سے 11.0 فیصد تک آگئی ہیں۔ خارجی استحکام میں بہتری، اور اس کے ساتھ ساتھ افراط زر کے دباؤ میں کمی، کی بدولت یہ مالیاتی تسہیل ممکن ہوئی۔ مستقبل میں چونکہ افراط زر کے دباؤ متوقع طور پر کم رہیں گے، چنانچہ شرحوں میں مزید کمی کا انحصار زرمبادلہ کے ذخائر کی تقویت پر ہوگا۔

حاملین قرض کے لیے ہمیں اُمید ہے کہ منی مارکیٹ فنڈ سال بھر پالیسی شرحوں کی بلاؤ کاؤٹ عکاسی جاری رکھیں گے۔

میوچل فنڈ صنعت کا جائزہ

اوپن-اینڈ میوچل فنڈز کی صنعت کے net اثاثہ جات مالی سال 2025ء کے دوران تقریباً 43.1 فیصد بڑھ کر 3,684 بلین روپے ہو گئے۔ منی مارکیٹ کے گل فنڈز میں جون 2024ء کے بعد سے تقریباً 44.4 فیصد اضافہ ہوا۔ منی مارکیٹ کے دائرہ کار میں روایتی فنڈز 55.3 فیصد بڑھ کر 977 بلین روپے ہو گئے، جبکہ اسلامک فنڈز 34.3 فیصد بڑھ کر 912 بلین روپے ہو گئے۔

ڈائریکٹرز رپورٹ

base اثر اور سیلاب سے کپاس کی فصل کو نقصان تھیں۔ صنعت اور خدمات کے شعبوں کی ترقی میں بحالی ہوئی جس کی وجہ مجموعی معاشی اشاروں میں بہتری تھی۔ مالیاتی جہت میں ایف بی آر کی ٹیکس کی وصولی مالی سال 2025ء میں 25.9 فیصد بڑھ کر 11,722 بلین روپے ہو گئی، جو نظر ثانی شدہ کم تر ہدف 11,900 بلین روپے کے یا تقابل ہے، یعنی 178 بلین روپے کم ٹیکس جمع ہوا۔ اس کمی کی بڑی وجہ تجارت میں کمی، سسٹ رفتار ترقی اور پست افراط زر ہیں۔

معیشت اور مارکیٹ - مستقبل کا منظر نامہ

مستقبل کے امکانات کے حوالے سے ہم سمجھتے ہیں کہ مالی سال 2026ء میں جی ڈی پی میں 4.1 فیصد ترقی ہوگی۔ زراعت base اثر کی وجہ سے بحال ہوگی اور اس میں متوقع طور پر 3.9 فیصد ترقی ہوگی۔ شرح سود میں کمی کے سسٹ رفتار اثر سے صنعت اور خدمات کے شعبے کو مستقبل میں فائدہ ہوگا اور ان میں یا لرتیب 4.4 فیصد اور 4.0 فیصد ترقی کا امکان ہے۔

آئی ایم ایف پروگرام کا تسلسل ایک اہم مثبت پہلو ہے کیونکہ اس کی بدولت ہم دو طرفہ اور کثیر الجہتی ذرائع سے فنڈنگ حاصل کر سکیں گے۔ ایس بی پی کے ذخائر متوقع طور پر بڑھ کر سال کے اختتام تک 17.4 بلین ڈالر تک پہنچ جائیں گے اور اس کے عوامل بروقت دو طرفہ رول اوور (قرض کے معاہدوں میں توسیع) اور آئی ایم ایف اور کثیر الجہتی ایجنسیوں کی طرف سے آمدات ہیں۔ ہماری خارجی صورتحال بہتر ہوئی ہے جس کی بدولت پاکستان بین الاقوامی کیپیٹل مارکیٹوں میں دوبارہ داخل ہونے پر غور کرنے کے قابل ہو سکتا ہے تاکہ Euro بانڈز، سٹیک اور پانڈا بانڈز جیسے ذرائع کا جائزہ لے سکے۔

ڈائریکٹرز رپورٹ

عزیز سرمایہ کار

بورڈ آف ڈائریکٹرز کی جانب سے ایم سی بی ڈی سی ایف فیکسڈ ریٹرن پلانز زیر انتظام ایم سی بی ڈی سی ایف فیکسڈ ریٹرن فنڈ کے اکاؤنٹس برائے سال مختتمہ 30 جون 2025ء کا جائزہ پیش خدمت ہے۔

معیشت کا جائزہ

مالی سال کا مضبوط آغاز ہوا کیونکہ حکومت نے آئی ایم ایف کے ساتھ 37 ماہ کی ایکسٹینشنڈ فنڈ فیسلٹی (ای ایف ایف) کے لیے 7.0 بلین ڈالر کا اسٹاف۔ لیول معاہدہ (ایس ایل اے) کر لیا۔ دورانِ مدت پاکستان نے مالیاتی اور خارجی نظم و ضبط کا مظاہرہ کر کے آئی ایم ایف پروگرام کے کلیدی اہداف اور مقررہ معیارات حاصل کر لیے۔ اس کے نتیجے میں مارچ 2025ء میں آئی ایم ایف ٹیم نے 'ای ایف ایف' کے پہلے جائزے کے لیے پاکستانی مختار اداروں کے ساتھ ایک 'ایس ایل اے' کیا، جسے 28 ماہ پر محیط ایک نئی ریزیلیئنس اینڈ سسٹینیبلٹی فیسلٹی (آر ایس ایف)، جس سے اضافی 1.3 بلین ڈالر فنڈنگ کی راہ ہموار ہوئی۔

مالی سال 2025ء کے ابتدائی گیارہ ماہ (11MFY25) میں منگ کا کرنٹ اکاؤنٹ سِرپلس 1.8 بلین ڈالر پوسٹ کیا گیا، جس کے بالمقابل گزشتہ سال مماثل مدت میں 1.6 بلین ڈالر خسارہ تھا۔ کرنٹ اکاؤنٹ کی بہتری میں اہم ترین کردار ترسیلاتِ زر کا تھا جن میں 28.8 فیصد کا خطرہ اضافہ ہوا اور وہ 34.9 بلین ڈالر ہو گئیں۔ تجارتی خسارہ 22.1 فیصد (YoY) (سال در سال) بڑھ گیا کیونکہ برآمدات میں 4.0 فیصد اضافہ ہوا جبکہ درآمدات ایک پست بنیاد سے 11.5 فیصد بڑھ گئیں۔ منگ کی خارجی صورتحال بہتر ہوئی کیونکہ ایس بی پی کے زرمبادلہ کے ذخائر بڑھ کر جون 2025ء کو 14.5 بلین ڈالر ہو گئے، جس کے بالمقابل گزشتہ مالی سال کے اختتام پر 9.4 بلین ڈالر تھے۔ اس کی وجوہات کرنٹ اکاؤنٹ سِرپلس، بروقت دو طرفہ رول اوور (قرض کے معاہدوں میں توسیع) اور آئی ایم ایف اور کثیرالجمہتی ذرائع سے آمدات تھیں۔ ڈالر کے مقابلے میں روپے کی قدر میں 1.9 فیصد کمی معمولی کمی ہوئی اور یہ 283.3 تک پہنچ گئی۔

مالی سال 2025ء کے دوران ہیڈ لائن (مجموعی) افراطِ زر، جس کی ترجمانی 'سی پی آئی' سے ہوتی ہے، کا اوسط 4.6 فیصد تھا، جس کے بالمقابل گزشتہ سالہ کی مماثل مدت میں 23.9 فیصد تھا۔ اس خطیر کمی کا سبب گزشتہ ایک سال کے دوران روپے کی قدر میں استحکام تھا، جس کی بدولت ایشیائی خورد و نوش اور توانائی کی قیمتیں مستحکم رہیں۔ مزید برآں، گندم کی قیمتوں اور base کے اثر میں بڑی کمی کے نتیجے میں افراطِ زر میں مزید کمی ہوئی۔

مالی سال 2025ء میں پاکستان کی پراویٹل جی ڈی پی (مجموعی ملکی پیداوار) 2.7 فیصد تھی، اور زراعت، صنعت اور خدمات کے شعبوں میں بالترتیب 0.6 فیصد، 4.8 فیصد اور 2.9 فیصد اضافہ ہوا۔ زراعت کے شعبے کی ترقی توقع سے کم تھی جس کی وجوہ بلند

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) as applicable in Pakistan. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Fund and MCB investment Management Limited (the Management Company) in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants as adopted by the Institute of Chartered Accountants of Pakistan (the Code), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Information Other than the Financial Statements and Auditor's Report Thereon

Management Company is responsible for the other information. The other information comprises the information included in the annual report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs as applicable in Pakistan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs as applicable in Pakistan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Management Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management Company.
- Conclude on the appropriateness of Management Company's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with Board of Directors of the Management Company regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Report on Other Legal and Regulatory Requirements

In our opinion, the financial statements have been prepared in accordance with the relevant provisions of the Non-Banking Finance Companies and Notified Entities Regulations, 2008.

The engagement partner on the audit resulting in this independent auditor's report is Hena Sadiq.

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2025

2.4 Critical accounting estimates and judgements

The preparation of the financial statements in conformity with the accounting and reporting standards as applicable in Pakistan requires the management to make estimates, judgements and assumptions that affect the reported amounts of assets and liabilities, income and expenses. It also requires the management to exercise judgment in the application of its accounting policies. The estimates, judgments and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances. These estimates and underlying assumptions are reviewed on an ongoing basis.

The areas involving a degree of judgment or complexity, or areas where estimates and assumptions are significant to the financial statements are as follows:

- Classification and valuation of financial assets (notes 3.1.1.1 and 5)
- Impairment of financial assets (note 3.1.1.3)
- Taxation (notes 3.4 and 12)
- Classification and measurement of financial liabilities (note 3.1.2.1)
- Contingencies and commitments (note 10)
- Provisions (note 3.3)

Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of revision and future periods if the revision affects both current and future periods.

2.5 Basis of measurement

These financial statements have been prepared under the historical cost convention, except for investments which are stated at fair value.

2.6 Functional and presentation currency

Items included in these financial statements are measured using the currency of the primary economic environment in which the Fund operates. These financial statements are presented in Pakistan Rupees which is the Fund's functional and presentation currency. Amounts presented in the financial statements have been rounded off to the nearest thousand rupees, unless otherwise stated.

3. MATERIAL ACCOUNTING POLICY INFORMATION

The accounting policies set out below have been applied consistently in these financial statements.

3.1 Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. Financial assets and financial liabilities are recognised in the Fund's statement of assets and liabilities when the Fund becomes a party to the contractual provisions of the instrument.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in the income statement.

3.1.1 Financial assets

All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.

3.1.1.1 Classification and measurement of financial assets

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the entity's business model for managing them.

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2025

All recognised financial assets are measured subsequently in their entirety at either amortised cost or fair value, depending on the classification of the financial assets. For purposes of subsequent measurement, financial assets are classified in following categories:

Financial assets at amortised cost (debt instruments)

Financial assets at amortised cost are subsequently measured using the effective interest rate method and are subject to impairment. Gains and losses are recognised in the income statement when the asset is derecognised, modified or impaired.

Financial assets at fair value through other comprehensive income (debt instruments)

For debt instruments at fair value through other comprehensive income (FVOCI), profit income, foreign exchange revaluation and impairment losses or reversals are recognised in the income statement and computed in the same manner as for financial assets measured at amortised cost. The remaining fair value changes are recognised in OCI. Upon derecognition, the cumulative fair value change recognised in OCI is reclassified to the income statement.

Financial assets at fair value through profit or loss (debt instruments)

Debt instruments that do not meet the amortised cost criteria or FVOCI criteria are classified as at fair value through profit or loss (FVTPL). In addition, debt instruments that meet either the amortised cost criteria or the FVOCI criteria may be designated as at FVTPL upon initial recognition if such designation eliminates or significantly reduces a measurement or recognition inconsistency (so called 'accounting mismatch') that would arise from measuring assets or liabilities or recognising the gains and losses on them on different bases.

3.1.1.2 Fair value measurement principles

The fair value of financial instruments is determined as follows:

Basis of valuation of government securities:

The government securities not listed on a stock exchange and traded in the interbank market are valued at the average rates quoted on a widely used electronic quotation system (PKRV / PKISRV / PKFRV) which are based on the remaining tenor of the securities. Moreover, listed government securities traded on Pakistan Stock Exchange (PSX) are valued at revaluation rates disseminated by Pakistan Stock Exchange (PSX).

Basis of valuation of debt securities:

The fair value of debt securities (other than government securities) is based on the value determined and announced by Mutual Funds association of Pakistan (MUFAP) in accordance with the criteria laid down in Circular No. 1 of 2009 and Circular No. 33 of 2012 issued by Securities and Exchange Commission of Pakistan (SECP). In the determination of the rates, MUFAP takes into account the holding pattern of these securities and categorises them as traded, thinly traded and non-traded securities. The aforementioned circular also specifies the valuation process to be followed for each category as well as the criteria for the provisioning of non-performing debt securities.

The Fund applies discretion on the effective yield as per the allowable limits in the above mentioned Circulars after taking into account aspects such as Liquidity Risk, Sector Specific Risk and Issuer Class Risk.

The allowable limits for rated securities for duration upto 2 years is +200/-100 bps and over 2 years is +150/-50 bps. For unrated securities the allowable limits +50 bps.

3.1.1.3 Impairment of financial assets

Management Company assesses at each reporting date whether there is objective evidence that the Fund's financial assets or a group of financial assets are impaired. If any such indication exists, the recoverable amount of such assets is estimated. An impairment loss is recognised whenever the carrying value of an asset exceeds its recoverable amount.

The SECP/Commission has through its letter no. SCD/AMCW/RS/MUFAP/2017-148 dated November 21, 2017 has deferred the applicability of the impairment requirements of IFRS 9 for debt securities on mutual funds. Therefore, the Fund will not be subject to the impairment provisions of IFRS 9.

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2025

For financial assets other than debt securities measured at amortised cost, IFRS 9 requires recognition of impairment based on expected credit loss (ECL) model. Under IFRS 9, the Fund is required to measure loss allowance equal to an amount equal to lifetime ECL or 12 months ECL based on credit risk.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the Fund considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Fund's historical experience and informed credit assessment and including forward-looking information.

However, majority of the assets of the Fund exposed to credit risk pertain to counter parties which have high credit rating or where credit risk has not been increased since initial recognition. Therefore, management believes that the impact of ECL would be very minimal and hence, the same has not been accounted for in these financial statements.

3.1.1.4 Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e., removed from the Fund's statement of assets and liabilities) when:

- the rights to receive cash flows from the asset have expired; or
- the Fund has transferred its rights to receive cash flows from the asset and substantially all the risks and rewards of the asset;

3.1.2 Financial liabilities

3.1.2.1 Classification and measurement of financial liabilities

All financial liabilities are measured subsequently at amortised cost using the effective interest method or at FVTPL.

Financial liabilities are measured at amortised cost, unless they are required to be measured at FVTPL (such as instruments held for trading or derivatives) or the Fund has opted to measure them at FVTPL.

3.1.2.2 Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the income statement.

3.1.3 Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the statement of assets and liabilities if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

3.2 Cash and cash equivalents

Cash and cash equivalents comprise of bank balances and short term highly liquid investments with original maturity of three months or less which are readily convertible to known amounts of cash, are subject to an insignificant risk of changes in value.

3.3 Provisions

Provisions are recognised when the Fund has a present, legal or constructive, obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the amount of the obligation can be made. Provisions, if any, are regularly reviewed and adjusted to reflect the current best estimate.

3.4 Taxation

The income of the Fund is exempt from income tax under Clause 99 of Part I of the Second Schedule to the Income Tax Ordinance, 2001 subject to the condition that not less than ninety percent of its accounting income for the period, as reduced by capital gains and accumulated loss, whether realised or unrealised, is distributed to the unit holders as cash

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2025

reduced by capital gains and accumulated loss, whether realised or unrealised, is distributed to the unit holders as cash dividend.

The Fund is also exempt from the provisions of Section 113 (minimum tax) under Clause 11A of Part IV of the Second Schedule to the Income Tax Ordinance, 2001.

3.5 Dividend distribution and appropriations

Dividend distributions and appropriations are recorded in the period in which these are approved by the Board of Directors of the Management Company. Based on the Mutual Funds Association of Pakistan's (MUFAP) guidelines duly consented by the SECP, distribution for the period also includes portion of income already paid on units redeemed during the period.

Regulation 63 of the NBFC Regulations requires the Fund to distribute 90% of the net accounting income other than capital gains to the unit holders.

Distributions declared subsequent to the period end / reporting date are considered as non-adjusting events and are recognised in the financial statements of the period in which such distributions are declared and approved by the Board of Directors of the Management Company.

3.6 Issue and redemption of units

Units issued are recorded at the offer price, determined by the Management Company for the applications received by the distributors during business hours on that date. The offer price represents the net asset value per unit as of the close of the business day plus the allowable sales load and any provision for duties and charges, if applicable. The sales load is payable to investment facilitators, distributors and the Management Company.

Units redeemed are recorded at the redemption price, applicable to units for which the distributors receive redemption applications during business hours of that day. The redemption price represents the net asset value per unit as of the close of the business day less any back-end load, any duties, taxes, and charges on redemption, if applicable.

Element of income represents the difference between net assets value per unit on the issuance or redemption date, as the case may be, of units and the net assets value per unit at the beginning of the relevant accounting period. Further, the element of income is a transaction of capital nature and the receipt and payment of element of income is taken to unit holders' fund. However, to maintain the same ex-dividend net asset value of all units outstanding on the accounting date, net element of income contributed on issue of units lying in unit holders' fund is refunded on units in the same proportion as dividend bears to accounting income available for distribution.

3.7 Net asset value per unit

The Net Asset Value (NAV) per unit as disclosed in the statement of assets and liabilities is calculated by dividing the net assets of the Fund by the number of units in issue at the year end.

3.8 Revenue recognition

- Gain or loss on sale of investment is accounted for in the income statement in the period in which it arises.
- Unrealised gain / (loss) arising on re-measurement of investments classified as 'at fair value through profit or loss' is included in the income statement in the period in which it arises.
- Income from investments in government securities is recognised on a time proportionate basis using effective interest rate method.
- Profit on bank balances is recognised on a time proportionate basis using bank's approved rates.

3.9 Expenses

All expenses chargeable to the Fund including remuneration of the Management Company, Trustee fee and SECP fee are recognised in the income statement on an accrual basis. Moreover, auditors' remuneration of the Fund is borne by the Management Company.

3.10 Earnings per unit

Earnings per unit (EPU) has not been disclosed as in the opinion of the management, determination of weighted average units for calculating EPU is not practicable.

14. FAIR VALUE OF FINANCIAL INSTRUMENTS

IFRS 13 - 'Fair Value Measurement' establishes a single source of guidance under IFRS for all fair value measurements and disclosures about fair value measurement, where such measurements are required as permitted by other IFRSs. It defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e. an exit price).

Financial assets which are tradable in an open market are revalued at the market prices prevailing on the close of trading i.e. period end date. The estimated fair value of all other financial assets and financial liabilities is considered not significantly different from book value as these are short term in nature.

The following table shows financial instruments recognised at fair value, based on:

Levels	Description	Valuation approach and input used
Level 1:	Quoted prices in active markets for identical assets or liabilities;	Listed government securities traded on PSX are valued at revaluation rates disseminated by PSX.
Level 2:	Those involving inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (as prices) or indirectly (derived from prices); and	The government securities not listed on a stock exchange and traded are valued at the average rates quoted on electronic quotation system (PKRV / PKFRV / PKISRV).
Level 3:	Those with inputs for the asset or liability that are not based on observable market data (unobservable inputs).	The Fund applies discretion on the effective yield as per the allowable limits. The allowable limits for rated securities for duration upto 2 years is +200/-100 bps and over 2 years is +150/50 bps. For unrated securities the allowable limits is +50 bps.

The following table show the carrying amount and fair values of financial assets and financial liabilities including the levels in the fair value hierarchy.

15. FINANCIAL RISK MANAGEMENT

The Fund's objective in managing risk is the creation and protection of unit holders' value. Risk is inherent in the Fund's activities, but it is managed through monitoring and controlling activities which are primarily set up to be performed based on limits established by the Management Company, the constitutive documents of the Fund and the regulations and directives of the SECP. These limits reflect the business strategy and market environment of the Fund as well as the level of the risk that the Fund is willing to accept. The Board of Directors of the Management Company supervises the overall risk management approach within the Fund. The Fund is exposed to market risk, liquidity risk and credit risk arising from the financial instruments it holds.

15.1 Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of the changes in market prices.

The Management Company manages market risk by monitoring exposure on marketable securities by following the internal risk management policies and investment guidelines approved by the Board of the Management and the regulations laid down by the SECP, the NBFC Regulations and the NBFC Rules.

Market risk comprises three types of risk: currency risk, profit rate risk and price risk.

15.1.1 Currency risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate as a result of changes in foreign exchange rates. At present, the Fund is not exposed to currency risk as all the transactions are carried out in Pakistani Rupees.

15.1.2 Yield / Interest rate risk

Yield / interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate as a result of changes in market interest rates. As of June 30, 2025, the Fund is exposed to such risk on bank balances and investments in government securities. The Investment Committee of the Fund reviews the portfolio of the Fund on a regular basis to ensure that the risk is managed within the acceptable limits.

As of June 30, 2025 details of Fund's profit bearing financial instruments were as follows:

	Note	June 30, 2025 Rupees '000'	June 30, 2024 Rupees '000'
Variable rate instruments (financial asset)			
Bank balances	4	45,456	20,607
Fixed rate instruments (financial assets)			
Market treasury bills	5	18,464	4,669,514
		18,464	4,669,514

a) Sensitivity analysis for variable rate instruments

Presently, the Fund holds KIBOR based bank balances which expose the Fund to cash flow interest rate risk. In case of 100 basis points increase / decrease in applicable rates on the last repricing date with all other variables held constant, the net income / loss for the year and net assets of the Fund would have been higher / lower by Rs. 0.095 million. (2024 : Rs. 0.206 million)

b) Sensitivity analysis for fixed rate instruments

As at June 30, 2025, the Fund holds government securities which are fixed rate instruments exposing the Fund to fair value interest rate risk. In case of 100 basis points increase / decrease in rates announced by the Financial Market Association of Pakistan (FMAP) on June 30, 2025, the net income for the year and net assets would be lower / higher by Rs. 0.045 million. (2024: Rs. 46.695 million)

Yield / interest rate sensitivity position for on-balance sheet financial instruments is based on the earlier of contractual repricing or maturity date. The composition of the Fund investment may change over time. Accordingly, the sensitivity analysis prepared as at June 30, 2025 is not necessarily indicative of the impact on the Fund's net assets of future movements in interest rates.

15.1.3 Price risk

Price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate as a result of changes in market prices (other than those arising from interest rate risk or currency risk) whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting all similar financial instruments traded in the market.

15.2 Credit risk

Credit risk represents the risk of loss if counterparties fail to perform as contracted. The Fund is exposed to counter party credit risks on investments in government securities, bank balances and other financial assets at amortised cost. The credit risk on the fund is limited because the counterparties are financial institutions with reasonably high credit ratings.

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2025

The Fund has adopted a policy of only dealing with creditworthy counterparties as a means of mitigating the risk of financial loss from defaults. This information is supplied by independent rating agencies, where available, and if not available, the Fund uses other publicly available financial information and its own trading records to rate its major counter parties. The Fund's exposure and the credit ratings of its counterparties are continuously monitored and the aggregate value of transactions concluded is spread amongst approved counterparties.

Credit risk from balances with banks and financial institutions is managed in accordance with the Fund's policy. Investments of funds are made only with approved counterparties and within credit limits assigned to each counterparty. Counterparty credit limits are approved by the Board of Directors. The limits are set to minimise the concentration of risk and therefore mitigate financial loss through potential counterparty failure.

The Fund's maximum exposure to credit risk is the carrying amounts of following financial assets.

	June 30, 2025		June 30, 2024	
	Balance as per statement of assets and liabilities	Maximum exposure	Balance as per statement of assets and liabilities	Maximum exposure
	Rupees '000'		Rupees '000'

Profit receivable	181	181	1,367	1,367
	64,101	45,637	4,691,488	21,974

The analysis below summaries the credit rating quality of the Fund's financial assets as at June 30, 2025.

Bank Balances by rating category

Rating	June 30, 2025		June 30, 2024	
	Rupees '000'	%	Rupees '000'	%
AAA	45,456	100	20,607	100

Above rating is on the basis of available ratings assigned by Pakistan Credit Rating Agency (PACRA) as of June 30, 2025.

15.2.1 Concentration of credit risk

Concentration of credit risk exists when changes in economic or industry factors similarly affect groups of counterparties whose aggregate credit exposure is significant in relation to the Fund's total credit exposure. The Fund's portfolio of financial instruments is broadly diversified and transactions are entered into with diverse credit-worthy counterparties thereby mitigating any significant concentration of credit risk.

16.3 Settlement risk

The Fund's activities may give rise to risk at the time of settlement of transactions. Settlement risk is the risk of loss due to the failure of counter party to honour its obligations to deliver cash, securities or other assets as contractually agreed. Credit risk relating to unsettled transactions in securities is considered to be minimal as the Fund uses brokers with high creditworthiness and the transactions are settled or paid for only upon delivery using the central clearing system.

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2025

15.4 Liquidity risk

Liquidity risk is the risk that the Fund will encounter difficulty in meeting its obligations arising from its financial liabilities that are settled by delivering cash or other financial assets or that such obligations will have to be settled in a manner disadvantageous to the Funds. Liquidity risk also arises because of the possibility that the Fund could be required to pay its liabilities earlier than expected. The Fund is exposed to cash redemptions of its units on a regular basis. Units are redeemable at the holder's option based on the Fund's applicable redemption price calculated in accordance with the Fund's constitutive documents and guidelines laid down by the SECP.

Units of the Fund are redeemable on demand at the holder's option, however, the Fund does not anticipate significant redemption of units.

The table below analyses the Fund's financial assets and financial liabilities into relevant maturity groupings based on the remaining period at the statement of assets and liabilities date to the contractual maturity date. The amounts in the table are the contractual undiscounted cash flows.
