Muhammad Rehan Khan
Company Secretary

Dear Shareholders,

I am privileged to present this Report to the members of MCB Investment Management Limited for the year ended June 30, 2026. It is an opportunity for us to collectively reflect, reset and rejuvenate our mission to become a growth-oriented and sustainable Company.

The Audited Financial Statements for the year reveal the following about the performance of the Company, when compared with last year:

		June 30, 2026		**June 30, 2025**
		----------Amount in Rupees---------		
Management Fee / Investment Advisory Fee		4,483,462,499		4,450,793,635
Income from investments including profit on deposits		709,508,091		699,939,721
Profit before taxation		2,803,566,898		2,748,676,774
Profit after taxation		1,772,477,754		1,758,371,236
Earnings per share (EPS)		24.62		24.42

Pakistan's provisional GDP growth reached 3.7% in FY 26, supported by growth of 3.5% in the industrial sector and 4.1% in the services sector, reflecting the lagged impact of earlier interest-rate cuts. Foreign exchange reserves increased from USD 14.5 billion in June 2025 to USD 18.4 billion by the end of FY26, supported by a broadly balanced current account and improved external inflows. The strengthening macroeconomic position was also reflected in S&P's upgrade of Pakistan's sovereign credit rating to 'B'.

Improved macroeconomic fundamentals and a stronger equity-market outlook enhanced investor appetite for equity-based funds and supported about 87% increase in assets under management in this category to reach Rs. 69 billion. Looking ahead, management remains optimistic about the continued positive performance of the stock market, which is expected to support further growth in assets under management and revenues across all fund categories, while contributing to stronger profitability.

At the forthcoming AGM we will be pleased to present before our shareholders a final cash dividend of Rs. 4.00 per share which is in addition to Rs. 3.00 per share (30%) interim dividend for the year ended June 30, 2026.

The Company continued to strengthen its digital capabilities by expanding technology-led distribution channels and enhancing investor engagement across digital platforms. During the year, Digital Business grew exponentially by an overall growth of 55%.

During the year, we also partnered with the Government of Punjab to support the implementation of its Pension Fund initiative, leveraging our expertise in asset and pension fund management to help build a transparent, technology-enabled, and sustainable retirement solution.

Our digital marketing capabilities were further strengthened through the expanded adoption of **Generative AI** across marketing and customer engagement. By enabling personalized campaigns, streamlining content creation, and optimizing campaign performance through data-driven insights, AI enhanced operational efficiency, accelerated execution, and delivered more impactful investor communication.

Our focus on innovation and excellence was recognized through several prestigious industry accolades during the year, including:

- **Best Email Marketing Campaign 2026** at the Pakistan Digital Awards — marking our **third consecutive year** receiving this distinction.
- **Excellence in Asset & Pension Fund Management** at the **CxO Global Forum Awards**, recognizing our leadership and contribution to the asset and pension fund management industry.
- **CEO of the Year in Asset Management Category** at the **Brands of the Year Awards**, celebrating visionary leadership and sustained organizational excellence.

These recognitions reaffirm our commitment to innovation, customer-centricity, digital excellence, and industry leadership.

Looking ahead, we will continue to invest in digital capabilities, strategic partnerships, and emerging technologies to make investing simpler, more accessible, and more efficient. Our focus remains on delivering seamless investment experiences while strengthening long-term value for our investors and stakeholders.

I would like to appreciate our board members who have always focused on the preservation of the best interests of both the Company's shareholders and unit holders of the Funds under its management. As part of this effort, the Board's properly structured Committees are in place, with each one having well-defined objectives and appropriate Terms of Reference; performing their respective roles effectively and efficiently.

This year, a new Committee 'IT and Digital Risk Management Committee' was formed which primarily focuses on designing policies and approving strategies for Digital and IT based services related issues with the objective to identify and mitigate IT-related risks. Further, the Committee plays a critical role in strategic Digital/ IT decision-making and also focuses on emerging technology trends. During the year, a total of twenty one (21) meetings of the Board and the Committees of the Board were held which comprised of ten (10) meetings of the Board of Directors, eight (8) meetings of the Audit Committee, one (1) meeting of the IT & Digital Risk Management Committee and two (2) meetings of the Human Resource and Remuneration Committee. I wish to record my appreciation to the Board Members for the active participation and continued guidance to the Management.

I expect that the Company, through its Management team, will continue to work closely with its valued clients, as well as, very importantly, with its employees, shareholders and stakeholders in a manner that makes one feel proud to be associated with MCB Investment Management Limited.

PRINCIPAL BUSINESS

THE BUSINESS ENVIRONMENT

Economy Review

The country posted a current account deficit of USD 139 million in fiscal year 2026 (FY26) compared to a surplus of USD 1,838 million in the corresponding period last year. Trade Deficit increased by 25.4% YoY as exports declined by 4.6% while imports increased by 9.0%. The remittances inflows grew at a healthy rate of 8.6% to USD 41.6 billion. The county's external position remained robust as SBP's foreign exchange reserves increased to around USD 18.4 billion compared to USD 14.5 billion at the end of the last fiscal year. The local currency depicted strength against the greenback as the USD/PKR appreciated by 2.0% to 278.2 during the period.

Headline inflation, as measured by the Consumer Price Index, averaged 7.0% during FY26, compared with 4.5% in the previous year. The acceleration was primarily driven by higher global oil prices, which translated into increased domestic fuel prices and generated broader second-round inflationary pressures across transportation, energy-intensive goods, and other components of the consumer basket.

Pakistan's provisional GDP growth clocked at 3.7% in FY26 with Agricultural, Industrial and Services sectors increasing by 2.9%, 3.5% and 4.1% respectively. On the fiscal front, FBR tax collection increased by 10.7% during FY26 to PKR 13,004 billion, exceeding the twice downward-revised target by PKR 21 billion. Meanwhile, the fiscal deficit narrowed substantially to PKR 3,778 billion (3.0% of GDP) from PKR 6,168 billion (5.4% of GDP) in the previous year. This marked improvement was primarily supported by lower financing costs, stronger revenue mobilization, and continued fiscal discipline.

Equity Market Review

Pakistan equities delivered another strong year in FY26, with the KSE-100 Index gaining 43.5% to close at 180,302 points, marking a third consecutive year of positive returns. The market's performance was supported by continued improvement in macroeconomic conditions, including stronger foreign exchange reserves, progress under the IMF programme, sovereign credit-rating upgrades and a more supportive monetary backdrop. Investor confidence was further reinforced by improving external relations, renewed foreign investment interest, progress on circular debt resolution and resilient corporate earnings across key sectors. These developments drove the index to an all-time high of 189,167 points in January 2026.

The second half of the year was, however, characterised by elevated volatility. Escalating tensions between the US and Iran pushed international oil prices to around USD 120 per barrel, raising concerns over inflation, the external account and the domestic interest-rate outlook. This triggered a sharp market

correction during February and March. Sentiment subsequently improved during the final quarter as geopolitical tensions eased, oil prices moderated and the market reassessed the underlying strength of Pakistan's macroeconomic and corporate fundamentals. The recovery was further supported by IMF approval of USD 1.3 billion under the EFF and RSF programmes, the successful issuance of Pakistan's inaugural USD 250 million Panda Bond and a market-friendly FY27 Federal Budget. As a result, the KSE-100 recovered strongly through April, May and June, ending FY26 close to its record high despite significant interim volatility.

During FY26, foreign investors, insurance companies, and banks were major net sellers, with outflows of USD 847.7 million, USD 242.7 million, and USD 177.1 million, respectively. This selling was mainly absorbed by companies, mutual funds, and individuals, with inflows of USD 587.5 million, USD 406.8 million, and USD 330.1 million, respectively. On the activity front, average trading volumes for the KSE-All Index increased to 910.9 million shares, compared to about 618.4 million shares in FY25. Meanwhile, average trading value during the period increased by 54.7% over the last year to USD 151.8 million.

Banks, Fertilizer, and E&P sectors were the major contributors to the index rally, adding 21,612, 7,748, and 6,151 points, respectively. Attractive dividend yields and valuations garnered investor interest in the Banking and Fertilizer sectors, while the E&P sector also remained in the limelight due to the one-off PKR 1.2trn disbursement by the GoP under the circular debt clearance plan and rising oil prices.

Economy & Market – Future Outlook

The renewed escalation in the Iran–US conflict has triggered a sharp increase in global oil prices, with Brent crude trading at around USD 100 per barrel at the time of writing amid concerns over potential supply disruptions through the Strait of Hormuz and the Bab al-Mandab Strait. This has immediate macroeconomic implications, particularly for oil-importing economies like Pakistan, as higher oil prices raise the import bill, fuel inflation, and exert pressure on the currency. However, the situation remains highly fluid, with outcomes dependent on the duration and intensity of the conflict. If tensions do not escalate further, the impact on macros is likely to remain manageable, but a prolonged conflict could keep oil prices elevated and pose additional risks to inflation, external balances, and overall economic stability.

Given the increase in global oil prices and refinery margins, we now expect Pakistan's current account deficit to widen to approximately USD 2.5 billion, or 0.5% of GDP, in FY27, compared with USD 139 million, or 0.03% of GDP, in FY26. Elevated oil prices remain the key downside risk to the external account. Based on our estimates, every USD 10 per barrel increase above our base-case oil price assumption of USD 80 per barrel could add approximately USD 2.0 billion to the import bill and, by extension, the current account deficit. Nevertheless, the continuation of the IMF program remains an important source of external stability, as it should facilitate Pakistan's access to multilateral, bilateral and commercial financing. Pakistan's continued geopolitical relevance may also support additional inflows from friendly countries. In this regard, Saudi Arabia has recently provided an additional USD 3.0 billion in deposits and extended its existing USD 5.0 billion facility for a further three years. The currency outlook will remain closely linked to the trajectory of international oil prices, external financing flows and broader geopolitical conditions. Under our base case, we have assumed approximately 5.0% depreciation in the Pakistani rupee and expect the USD/PKR exchange rate to close at around 292 by June 2027.

Higher international oil prices, together with corresponding adjustments in domestic fuel prices, are also expected to keep inflationary pressures elevated in the near term. We now project average CPI inflation of approximately 8.4% in FY27, compared with 7.0% in FY26. On the growth front, GDP is

expected to expand by between 3.5% and 4.0% in FY27, although any further escalation in the Middle East conflict would pose a downside risk to this forecast. On the fiscal front, we expect the fiscal deficit to normalize to 3.6% of GDP in FY27 compared to 3.0% GDP in FY26. Fiscal deficit is expected to remained contained due to IMF strict requirement to generate a primary surplus of PKR 2.8 trillion (2.0% of GDP).

The Monetary Policy Committee increased the policy rate by 100 basis points to 11.5% at its April 2026 meeting, following an extended period of monetary easing, and subsequently maintained the rate at its June 2026 meeting. Going forward, developments in the Middle East are likely to remain a key driver of macroeconomic variables and, by extension, the monetary policy outlook. We expect the central bank to maintain a data-dependent approach in shaping upcoming policy decisions.

From the capital market perspective particularly equities, the market is still trading at attractive valuations. Market cap to GDP ratio is at 15.6%, a discount of 13.8% from its historical average of 18.1%. We believe a closer view of sectors and stocks will remain important and investment selection should focus on companies, which trade at a discount to their intrinsic value. As of the close of the quarter, the market is trading at a forward Price to Earnings ratio of 8.1x, while offering a dividend yield of 6.1%. For debt holders, we expect Money Market Funds to continue to seamlessly mirror policy rates throughout the year.

Mutual Fund Industry Review

The Net Assets of the open-end mutual funds industry increased by about 14.3% during FY26 to PKR 4,209 billion. Total money market funds declined by 0.9% since June 2025. Within the money market sphere, conventional funds showed a decrease of 6.5% to PKR 914 billion while Islamic funds increased by 5.0% to PKR 957 billion. In addition, the total fixed Income and Fixed Rate funds increased by about 15.9% since June 2025 to PKR 1,440 billion while Equity and related funds increased by 62.3% to PKR 797 billion.

In terms of the segment share, Money Market funds were the leader with a share of around 44.5%, followed by Income and fixed return funds with 34.2% and Equity and Equity related funds having a share of 18.9% as at the end of June 2026.

Mutual Fund Industry Outlook

Money market funds should benefit from higher liquidity as they are ideal for investors with a short-term horizon and low risk profile. For medium to long term investors the interest in capital markets particularly equities will continue to remain strong. Our operations remained seamless and given our competitive edge in digital access and online customer experience; we are prepared to get benefits of the growing number of investors available online.

CORPORATE BRIEFING SESSION OF THE COMPANY

Corporate Briefing Sessions (CBS) provide an interactive platform for engagement between the Company's management and the investor community. These sessions enable the Company to provide local and foreign investors with a comprehensive overview of the prevailing business environment and key economic indicators, while also discussing the Company's financial performance, competitive landscape, investment decisions, key challenges, and business outlook.

The Company conducted its Corporate Briefing Session on November 20, 2025, with participants attending virtually via Zoom session.

PRINCIPAL RISKS AND UNCERTAINTIES

Assets under management (AUM), which is the backbone of asset management industry, showed decent growth in FY26 and reached around Rs. 4.4 trillion. Macroeconomic stability, despite deteriorating geo-political landscape, supported this growth.

Most of this growth can be traced back to increase in AUM of Shariah funds including equity and the broader fixed income categories. It is important to highlight that the share of Shariah mutual funds has been rising over the years and gained further momentum after Federal Shariah Court directed a national transition towards an Islamic financial system. Apart from Shariah category, conventional equity funds also contributed a major chunk to the increase in overall industry AUM as the stock market posted significant returns in FY26.

Going forward, geo-political instability remains a major risk, which can distort macroeconomic variables and in turn returns on investment avenues.

For the past few years, Asset Management Companies (AMCs) have increasingly been focusing on and offering online and Mobile based services. Although, cyber security solutions against hacking and cyber-attacks require substantial costs to develop, maintain and protect, however, SECP has now mandated AMCs providing services through digital platforms to ensure that adequate cybersecurity measures and controls are in place. Going forward, with the implementation of required controls by the industry, the level of cybersecurity risk is likely to reduce.

Regulatory authorities maintained an intensified focus on 'Anti Money Laundering' (AML), 'Combating the Financing of Terrorism' (CFT) and 'Know Your Customer' (KYC) requirements. This has increased regulatory risk for Asset Management Companies (AMCs), which are required to carefully perform Customer Due Diligence (CDD). MCBIM is committed to ensuring compliance of these very demanding but necessary regulations.

CORPORATE SOCIAL RESPONSIBILITY AND ITS IMPACT ON ENVIRONMENT

Financial Literacy Initiatives - Empowering Through Financial Education

As part of its commitment to corporate social responsibility and financial inclusion, MCB Funds conducted a series of financial literacy initiatives across diverse audiences. In collaboration with AshreiTech Academy, the Company held a workshop at the National Aerospace Science & Technology Park (NASTP) for young professionals on budgeting, saving, and investing. Additionally, during Pakistan Financial Literacy Week 2026, in collaboration with MUFAP and SECP, the Company conducted public awareness sessions at Dolmen Mall, Lahore, promoting informed financial decision-making among the general public.

MCB Funds Cares – Plantation Drive

Under the MCB Funds Cares initiative, a plantation drive was organized at Shahwilayat Public School to promote environmental awareness, sustainability, and community engagement, encouraging students to participate. The students painted the pots and planted the saplings themselves and were guided to nurture their plants by watering them daily and keep them healthy.

ہولڈنگ کمپنی

18 اپریل 2023ء کو ایم سی بی بینک لمیٹڈ (ایم سی بی) نے، ایم سی بی-عارف حبیب سیونگز اینڈ اِنویسٹمنٹس لمیٹڈ (ایم سی بی-اے ایچ) کی پیرِنٹ (سرپرست) کمپنی کی حیثیت میں، عارف حبیب کارپوریشن لمیٹڈ (اے ایچ سی ایل) سے ایم سی بی-اے ایچ کے 21,664,167 (یعنی 30.09 فیصد) حصص خرید لیے۔ اس سَودے کے ذریعے ایم سی بی بینک لمیٹڈ کی ایم سی بی-اے ایچ میں حاملیتِ حصص 36,956,768 (یعنی 51.33 فیصد) حصص سے بڑھ کر 58,620,935 (یعنی 81.42 فیصد) ہوگئی ہے اور اے ایچ سی ایل اب ایم سی بی-اے ایچ میں حصص کی حامل نہیں ہے۔ اس کے نتیجے میں کمپنی کا نام ایم سی بی-اے ایچ سے تبدیل کر کے ایم سی بی اِنویسٹمنٹ مینجمنٹ لمیٹڈ کر دیا گیا۔

سرمایہ کاری کے شعور کو فروغ دینا تھا۔ مزید براں، کمپنی نے پاکستان لٹریسی ویک 2026 یعنی مُلک میں مالیاتی آگاہی کے لیے منعقد کردہ سرگرمیوں کے ہفتے کے دوران MUFAP اور ایس ای سی پی کے ساتھ اشتراک میں ڈولمن مال لاہور میں عوامی آگاہی کی سیشن منعقد کیے جس کا مقصد عام لوگوں میں معلومات اور سمجھ بوجھ پر مبنی مالیاتی فیصلے کرنے کے رجحان کو فروغ دینا تھا۔

ایم سی بی فنڈز کیئرز - شجرکاری مہم

ایم سی بی فنڈز کیئرز کے اقدام کے تحت شاہ ولایت پبلک اسکول میں شجرکاری مہم کا انعقاد کیا گیا جس کا مقصد ماحولیاتی شعور، قابلیتِ بقاء اور معاشرے اور برادری میں شمولیت کو فروغ دینا اور طلبہ کو اس سرگرمی میں حصہ لینے کی ترغیب دینا تھا۔ طلبہ نے اپنے ہاتھوں سے گملوں پر رنگ کیا اور پودے لگائے۔ انھیں اپنے پودوں کی دیکھ بھال، روزانہ پانی دینے اور انھیں صحت مند رکھنے کے لیے راہنمائی بھی فراہم کی گئی۔

چھاتی کے کینسر سے آگاہی کا مہینہ - جلد تشخیص اور علاج کی آگاہی

ایم سی بی فنڈز نے پاکستان بھر میں اپنی تمام خواتین ملازمین کے لئے چھاتی کے کینسر کی جلد تشخیص اور علاج کی آگاہی کے لیے سیشن کا انعقاد کیا۔ اس سیشن کا مرکزِ توجہ جلد تشخیص اور صحت کی حفاظت تھا، اور اس سرگرمی کے ذریعے خواتین کی صحت اور سماجی فلاح کے حوالے سے ہمارے 'ای ایس جی' (سماجی) عزم کی توثیق ہوئی۔

اثاثہ جاتی منتظم اور استحکام کی درجہ بندی

ایم سی بی اِنویسٹمنٹ مینجمنٹ لمیٹڈ نے اثاثہ جاتی منتظم کی بلند ترین درجہ بندی 'اے ایم 1' برقرار رکھی۔ اس درجہ بندی سے اس بات کی عکاسی ہوتی ہے کہ کمپنی کا شمار صنعت میں صفِ اوّل کے اثاثہ جاتی منتظمین میں ہوتا ہے، جو روزمرہ کاروباری اُمور کے اعلیٰ ترین معیارات، سرمایہ کاری کی منظّم حکمتِ عملی، مؤثر طرزِ حکمرانی کی ساخت اور قابل انتظامی ٹیم کی حامل ہے۔ مینجمنٹ کمپنی کے تحت 'کلیکٹو انویسٹمنٹ اسکیمز' (مشترکہ سرمایہ کاری اسکیموں) کے استحکام کی درجہ بندی درج ذیل ہے:

اہم خطرات اور غیر یقینی عوامل

اثاثہ جات تحت الانتظامیہ (اے یو ایم) میں، جو اثاثہ جاتی انتظام کی صنعت کی شہ رگ ہیں، مالی سال 2026 میں مناسب ترقی ہوئی اور وہ تقریباً 4.4 ٹریلین روپے تک پہنچ گئے ہیں۔ بگڑتی ہوئی جغرافیائی اور سیاسی صورتحال کے باوجود ہونے والے مجموعی معاشی استحکام نے اس بڑھوتری کو سہارا دیا۔ اس مجموعی ترقی کا زیادہ تر سبب شرعی فنڈز کے زیرِ انتظام اثاثوں میں اضافہ ہے، جن میں ایکوٹی اور وسیع تر فِکسڈ انکم زمرے شامل ہیں۔ یہ بات اہم ہے کہ گزشتہ کئی برسوں کے دوران شرعی میوچل فنڈز کا حصہ مسلسل بڑھ رہا ہے، اور وفاقی شرعی عدالت کی جانب سے مُلک میں اسلامی مالیاتی نظام کی طرف منتقلی کی ہدایت کے بعد اس رجحان میں مزید تیزی آئی ہے۔ شرعی زمرے کے علاوہ روایتی ایکوٹی فنڈز نے بھی مجموعی صنعت کے اضافے میں نمایاں حصہ ڈالا، کیونکہ مالی سال 2026 میں اسٹاک مارکیٹ نے نمایاں منافع فراہم کیا۔ مستقبل میں جغرافیائی و سیاسی عدم استحکام ایک بڑے خطرے کے طور پر برقرار رہے گا، جو مجموعی معاشی متغیّرات کو متاثر کرسکتا ہے اور نتیجتاً سرمایہ کاری کے ذرائع سے حاصل ہونے والے منافعے پر بھی اثر انداز ہوسکتا ہے۔

گزشتہ چند برسوں سے اثاثہ جاتی انتظام کی کمپنیاں آن لائن اور موبائل پر مبنی خدمات پر زیادہ توجہ دے رہی ہیں اور یہ خدمات فراہم کر رہی ہیں۔ اگرچہ ہیکنگ اور سائبر حملوں سے تحفظ کے لیے سائبر سیکیورٹی کے نظام کو تیار کرنے اور جاری اور محفوظ رکھنے پر خاطر خواہ اخراجات آتے ہیں، تاہم 'ایس ای سی پی' نے اب ڈیجیٹل پلیٹ فارمز کے ذریعے خدمات فراہم کرنے والی 'اے ایم سی' کے لیے یہ لازمی قرار دیا ہے کہ مناسب سائبر سیکیورٹی اور کنٹرول اقدامات موجود ہو۔ مستقبل میں صنعت کی جانب سے مطلوبہ کنٹرول اقدامات کے نفاذ کے ساتھ سائبر سیکیورٹی کے خطرے کی سطح میں کمی آنے کا امکان ہے۔

ریگیولیٹری حکام نے منی لانڈرنگ کی روک تھام (اے ایم ایل)، دہشت گردی کی مالی معاونت کے تدارک (سی ایف ٹی) اور 'نو یوئر کسٹمر' (اپنے صارف کو جانیں) (کے وائے سی) سے متعلق تقاضوں پر مزید سخت توجہ برقرار رکھی۔ اس کے نتیجے میں اثاثہ جاتی انتظام کی کمپنیوں کے لیے ریگیولیٹری خطرات میں اضافہ ہوا ہے، اور ان کے لیے ضروری ہے کہ وہ صارفین کی مناسب اور مکمل جانچ پڑتال (کسٹمر ڈیو ڈیلیجنس) احتیاط سے انجام دیں۔ 'ایم سی بی آئی ایم' ان انتہائی سخت لیکن ضروری ضوابط پر مکمل عمل درآمد یقینی بنانے کے لیے پُرعزم ہے۔

صنفی اُجرت کے فرق سے متعلق بیان بمطابق ایس ای سی پی کے سرکیولر نمبر 10 برائے 2024

ایم سی بی اِنویسٹمنٹس ادارے کی تمام سطحوں پر مساوی نمائندگی کو یقینی بنا کر ایک جامع اور سب کو شامل کرنے والے کام کے ماحول کو فروغ دیتا ہے۔ کمپنی کا ماننا ہے کہ یکساں نوعیت کے عہدوں یا گریڈز پر کام کرنے والے مردوں اور خواتین کی اُجرت میں کوئی نمایاں فرق نہیں ہونا چاہیے۔ فی الوقت خواتین کے لیے اوسط صنفی اُجرت کا فرق (مین جینڈر رپے گیپ) 67.08 فیصد، جبکہ درمیانی قدر پر مبنی صنفی اُجرت کا فرق (میڈیَن جینڈر رپے گیپ) 45.84 فیصد ہے۔

Our responsibility is to review whether the Statement of Compliance reflects the status of the Company's compliance with the provisions of the Regulations and report if it does not and to highlight any non-compliance with the requirements of the Regulations. A review is limited primarily to inquiries of the Company's personnel and review of various documents prepared by the Company to comply with the Regulations.

As a part of our audit of the financial statements we are required to obtain an understanding of the accounting and internal control systems sufficient to plan the audit and develop an effective audit approach. The Regulations require the Company to place before the Audit Committee, and upon recommendation of the Audit Committee, place before the Board of Directors for their review and approval, its related party transactions. Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) as applicable in Pakistan. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' *Code of Ethics for Professional Accountants* as adopted by the Institute of Chartered Accountants of Pakistan (the Code) and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matter

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Following is the Key audit matter:

S.No.	Key audit matter	How the matter was addressed in our audit
1	**Valuation of investment in associates** (Refer notes 3.4 and 6 to the annexed financial statements)	
	The investment in associates of Rs. 3,990.848 million as at June 30, 2026 held by the Company constitute a significant component of total assets of the Company. These represent investment in units of mutual funds and pension funds under the management of the Company and are classified as 'investment in associates' which are accounted for using the equity method of accounting.	Our audit procedures included the following: ▪ Checked that the investments were valued accurately in accordance with the requirements of the accounting and reporting standards as applicable in Pakistan. ▪ Checked that the share of profit from associates was appropriately accounted for in the financial statements. ▪ Obtained account statements to check the existence of the investments portfolio as at June 30, 2026 and traced balances in these statements with the books and records of the Company.

S.No.	Key audit matter	How the matter was addressed in our audit
	The proper valuation of the investments portfolio of the Company as at June 30, 2026 and the related share of profit from associates during the year ended June 30, 2026 was considered a significant area and therefore, we considered this as a key audit matter.	▪ Checked the relevant presentation and disclosures made in the financial statements to ascertain whether these are complied with the accounting and reporting standards as applicable in Pakistan. ▪ We issued instructions to auditors of associates which were selected for audit, highlighting 'Investment in Associates' as a significant area. The auditors of those components performed audit procedures on the financial statements of the components and reported the results thereof to us. We, as auditors of the Company, evaluated the work performed by the component auditors and the results thereof.

Information Other than the Financial Statements and Auditor's Report Thereon

Management is responsible for the other information. The other information comprises the information included in the annual report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Board of Directors for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the accounting and reporting standards as applicable in Pakistan and the requirements of the Companies Act, 2017 (XIX of 2017) and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Board of directors are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs as applicable in Pakistan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs as applicable in Pakistan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.

pwc A·F·FERGUSON&CO.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the board of directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the board of directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the board of directors, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

Based on our audit, we further report that in our opinion:

a) proper books of account have been kept by the Company as required by the Companies Act, 2017 (XIX of 2017);

b) the statement of financial position, the statement of profit or loss, the statement of comprehensive income, the statement of changes in equity and the statement of cash flows together with the notes thereon have been drawn up in conformity with the Companies Act, 2017 (XIX of 2017) and are in agreement with the books of account and returns;

c) investments made, expenditure incurred and guarantees extended during the year were for the purpose of the Company's business; and

d) zakat deductible at source under the Zakat and Ushr Ordinance, 1980 (XVIII of 1980), was deducted by the Company and deposited in the Central Zakat Fund established under section 7 of that Ordinance.

The engagement partner on the audit resulting in this independent auditor's report is **Junaid Mesia**.

1 LEGAL STATUS AND NATURE OF BUSINESS

1.1 MCB Investment Management Limited (the Company) was incorporated in the name of Arif Habib Investment Management Limited (AHIML) on August 30, 2000 as an unquoted public limited company under the repealed Companies Ordinance, 1984 (now the Companies Act, 2017). In the year 2008, AHIML was listed on the Karachi Stock Exchange Limited (now the Pakistan Stock Exchange Limited) by way of offer for sale of shares by few of its existing shareholders to the general public. In the same financial year, the name of AHIML was changed from "Arif Habib Investment Management Limited" to "Arif Habib Investments Limited" (AHIL). On January 19, 2011, a transfer agreement was signed between Arif Habib Corporation Limited (AHCL) [the then Parent Company of AHIL] and MCB Bank Limited (MCB Bank) [the then Parent Company of MCB Asset Management Company Limited (MCB AMC)] for the transfer of the entire business of MCB AMC to AHIL to achieve synergies in business operations and to have access to a wider distribution network. The scheme of amalgamation ("the Scheme") was approved by the shareholders of AHIL and MCB AMC in their respective extraordinary general meetings held on May 21, 2011. The Scheme was also approved by the Securities and Exchange Commission of Pakistan (SECP) on June 27, 2011 (the effective date). In accordance with the terms contained in the Scheme, the Company became a subsidiary of MCB Bank Limited from the year ended June 30, 2011, which then owned 51.33% share capital of the Company. Pursuant to the merger of MCB AMC with and into AHIL, the name of AHIL was changed to MCB - Arif Habib Savings and Investments Limited (MCB-AHSIL) with effect from May 23, 2013. During the year ended June 30, 2023, MCB Bank Limited acquired the entire shareholding of AHCL in MCB-AHSIL after which the shareholding of MCB Bank Limited has increased from 51.33% to 81.42% in the Company and AHCL no longer held any shares in the Company. Consequently, members of the Company in an Extra Ordinary General Meeting (EOGM) held on July 7, 2023 resolved via special resolution that the name of the Company be changed from MCB-AHSIL to MCB Investment Management Limited. Thereafter, the Company applied to the Securities and Exchange Commission of Pakistan (SECP) for change of name under the provisions of the Companies Act, 2017 and the name was duly approved by the SECP on August 15, 2023.

2.1.2 The Securities and Exchange Commission of Pakistan (SECP) has directed vide SRO 56(I)/2016 dated January 28, 2016 that the requirements of IFRS 10, 'Consolidated financial statements', are not applicable in case of investments made by companies in mutual funds established under the Trust Deed structure. Accordingly, implications of IFRS 10 in respect of the Company's investment in mutual funds managed by it have not been considered in these financial statements.

2.2 Basis of measurement

These financial statements have been prepared under the historical cost convention except for the following:

- Right-of-use assets and their related lease liability are carried at present value of future lease rentals adjusted for any lease payments made at or before the commencement date of the lease;

- Certain investments are carried at fair value as disclosed in notes 7 and 12 to these financial statements; and

- Investment in associates is valued under equity method of accounting, as disclosed in note 6 to these financial statements.

2.3 Interpretations and amendments to the published accounting and reporting standards that are effective in the current year

There were certain new interpretations and amendments to the published accounting and reporting standards that became mandatory for the Company's annual accounting period than began on July 1, 2025 but are considered not to be relevant or do not have any significant effect on the Company's financial statements and, therefore, not detailed in these financial statements.

2.4 Standard, interpretations and amendments to published accounting and reporting standards that are not yet effective in the current year

2.4.1 There is a new standard and certain interpretations and amendments that are mandatory for the Company's accounting periods beginning on or after July 1, 2026 but are considered not to be relevant or will not have any significant effect on the Company's operations and therefore are not disclosed in these financial statements except:

- The new standard - IFRS 18 Presentation and Disclosure in Financial Statements' (IFRS 18) (published in April 2024) with applicability date of January 1, 2027. IFRS 18 already adopted and applicable shall impact the presentation of 'statement of profit or loss' and 'statement of comprehensive income' with certain additional disclosures in the financial statements; and

- Amendments to IFRS 9 'Financial Instruments' and IFRS 7 'Financial Instruments: Disclosures' which clarify the date of recognition and derecognition of a financial asset or financial liability including settlement of liabilities through banking instruments and channels including electronic transfers. The amendment when applied may impact the timing of recognition and derecognition of financial assets and financial liabilities.

The management is in the process of assessing the impact of the new standard and amendments and interpretations on the financial statements of the Company.

2.5 Reclassification of expenses

During the year, the Company has reconsidered the requirements of International Accounting Standards (IAS) 1, 'Presentation of Financial Statements' and has separately disclosed cost of providing services on the statement of profit or loss. Moreover, the Company has additionally incorporated separate line items for marketing expense and operating profit and has also adjusted the placement of certain other financial statement line items on the statement of profit or loss to give effect to the above change. The allocation of expenses among cost of providing services, administrative expenses and marketing expenses has been determined by the Company based on its best estimates and judgment. The Company believes that the revised presentation results in a better reflection of the Company's operations while ensuring the requirements of IAS 1. The comparative figures have also been re-arranged / reclassified to take into account above revision.

The revised presentation did not result in any change on the statement of financial position, statement of comprehensive income and statement of cash flows of the Company. Furthermore, there is no change on the profit or net assets of the Company.

The impact of this change in the financial statements is as follows:

It also requires the management to exercise its judgment in application of its accounting policies. The estimates and associated assumptions are based on historical experiences and various other factors that are believed to be reasonable under the circumstances. These estimates and assumptions are reviewed on an ongoing basis. Revision to accounting estimates are recognised in the year in which the estimates are revised if the revision affects only that year, or in the year of revision and future years if the revision affects both current and future years. 3 MATERIAL ACCOUNTING POLICY INFORMATION

The material accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

3.1 Fixed assets

3.1.1 Property and equipment

3.1.1.1 Owned

These are stated at cost less accumulated depreciation and accumulated impairment losses, if any. Subsequent costs are included in the assets' carrying amounts or recognised as separate assets, as appropriate, only when it is probable that future economic benefits associated with the items will flow to the Company and the cost of the items can be measured reliably. Depreciation is charged at the rates specified in note 4.1 using the straight line method. Depreciation on additions is charged from the month when the asset becomes available for use while on disposals depreciation is charged upto the month preceding the month of disposal. The residual values and useful lives are reviewed and adjusted, if significant, at each reporting date to reflect the current best estimate.

Normal repairs and maintenance are charged to the statement of profit or loss as and when incurred. However, major repairs and renewals are capitalised. Gains and losses on disposals of assets, if any, are included in the statement of profit or loss in the year in which the disposal is made.

Depreciation related to right-of-use assets is charged over the period of the lease term.

3.1.2 Capital work-in-progress

All expenditure connected with specific assets incurred during installation and construction period are carried under capital work-in-progress. These are transferred to the relevant category of property and equipment as and when these become available for use.

3.2 Intangible assets

Intangible assets are measured initially at cost and are subsequently carried at cost less accumulated amortisation and accumulated impairment losses, if any.

Subsequent costs are included in the assets' carrying amounts or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably.

3.2.1 Intangible assets with indefinite useful life

Intangible assets with indefinite useful life are stated at cost less accumulated impairment losses, if any.

3.2.2 Intangible assets with definite useful life

Intangible assets with definite useful life are stated at cost less accumulated amortisation and accumulated impairment losses, if any. Intangible assets are amortised at the rates specified in note 5.1 using the straight line method. Amortisation is charged from the month when the asset is available for use while on disposals amortisation is charged upto the month preceding the month of disposal. The useful life and amortisation method is reviewed and adjusted, if appropriate, at each reporting date.

Gains or losses on disposal of assets, if any, are included in the statement of profit or loss in the year in which they arise.

3.3 Financial instruments

3.3.1 Financial assets

3.3.1.1 Classification and subsequent measurement

The Company has applied IFRS 9 and classifies its financial assets in the following measurement categories:

- at amortised cost;
- at fair value through other comprehensive income (FVOCI); and
- at fair value through profit or loss (FVPL).

The classification requirements for debt and equity instruments are described below:

(i) Debt instruments

Debt instruments are those instruments that meet the definition of a financial liability from the issuer's perspective, such as loans, government and corporate bonds and puttable instruments like units of open-end mutual funds.

Classification and subsequent measurement of debt instruments depend on:

- the Company's business model for managing the asset; and
- the cash flow characteristics of the asset.

Based on these factors, the Company classifies its debt instruments in one of the following three measurement categories:

a) At amortised cost:

Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest (SPPI), and that are not designated as FVPL, are measured at amortised cost. The carrying amount of these assets is adjusted by any expected credit loss allowance recognised and measured as described in note 3.3.1.2.

b) Fair value through other comprehensive income (FVOCI):

Financial assets that are held for collection of contractual cash flows and for selling the assets, where the assets' cash flows represent solely payments of principal and interest, and that are not designated as FVPL, are measured at fair value through other comprehensive income (FVOCI). Movements in the carrying amount are taken through other comprehensive income, except for the recognition of impairment gains or losses, recognised and measured as described in note 3.3.1.2, interest revenue and foreign exchange gains and losses on the instrument's amortised cost, which are recognised in the statement of profit or loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in other comprehensive income is reclassified from equity to the statement of profit or loss.

c) Fair value through profit or loss (FVPL):

Assets that do not meet the criteria for classification at amortised cost or FVOCI are measured at fair value through profit or loss. A gain or loss on a debt investment that is subsequently measured at fair value through profit or loss and is not part of a hedging relationship is recognised in the statement of profit or loss in the period in which it arises.

(ii) Equity instruments

Equity instruments are instruments that meet the definition of equity from the issuer's perspective and are instruments that do not contain a contractual obligation to pay and that evidence a residual interest in the issuer's net assets.

All equity investments are required to be measured in the statement of financial position at fair value, with gains and losses recognised in the statement of profit or loss, except where an irrevocable election has been made at the time of initial recognition to measure the investment at FVOCI.

The dividend income for equity securities classified under FVOCI is recognised in the statement of profit or loss. However, any surplus / (deficit) arising as a result of subsequent movement in the fair value of equity securities classified as FVOCI is recognised in other comprehensive income and is not recycled to the statement of profit or loss on derecognition.

3.3.1.2 Impairment

The Company assesses on a forward-looking basis the expected credit losses (ECL) associated with its debt instrument assets carried at amortised cost and FVOCI. The Company recognises a loss allowance for such losses at each reporting date. The measurement of ECL reflects:

- an unbiased and probability-weighted amount that is determined by evaluating a range of possible outcomes;

- the time value of money; and

- reasonable and supportable information that is available without undue cost or effort at the reporting date about past events, current conditions and forecasts of future economic conditions.

The Company considers that a financial asset is in default when the counterparty fails to make contractual payments within 90 days of when they fall due. Further, financial assets are written off by the Company, in whole or part, when it has exhausted all practical recovery efforts and has concluded that there is no reasonable expectation of recovery.

3.3.1.3 Derecognition

Financial assets, or a portion thereof, are derecognised when the contractual rights to receive the cash flows from the assets have expired, or when they have been transferred and either:

(i) the Company transfers substantially all the risks and rewards of ownership; or

(ii) the Company neither transfers nor retains substantially all the risks and rewards of ownership and the Company has not retained control.

When the Company enters into transactions where it retains the contractual rights to receive cash flows from assets but assumes a contractual obligation to pay those cash flows to other entities and transfers substantially all of the risks and rewards, these transactions are accounted for as 'pass through' transfers that result in derecognition if the Company:

(i) has no obligation to make payments unless it collects equivalent amounts from the assets;
(ii) is prohibited from selling or pledging the assets; and
(iii) has an obligation to remit any cash it collects from the assets without material delay.

Any gain or loss on derecognition of financial assets is taken to the statement of profit or loss.

3.3.1.4 Regular way contracts

All regular way purchases and sales of financial assets are recognised on the trade date i.e. the date on which the Company commits to purchase or sell the asset. Regular way purchases / sales of assets require delivery of securities within two days from the transaction date as per the stock exchange regulations.

3.3.2 Financial liabilities

Financial liabilities are measured at fair value upon initial recognition and subsequently measured at amortised cost except for:

- Financial liabilities at fair value through profit or loss; and

- Financial liabilities arising from the transfer of financial assets which did not qualify for derecognition, whereby a financial liability is recognised for the consideration received for the transfer.

3.3.2.1 Derecognition

Financial liabilities are derecognised at the time when these are extinguished i.e. when the obligation specified in the contract is discharged, cancelled or expires. Any gain or loss on derecognition of financial liabilities is taken to the statement of profit or loss.

3.3.3 Initial recognition

Financial assets and financial liabilities are recognised at the time the Company becomes a party to the contractual provisions of the instrument. These are initially recognised at fair value plus transaction costs except for financial assets carried at fair value through profit or loss. Financial assets carried at fair value through profit or loss are initially recognised at fair value and transaction costs associated with these financial assets are taken directly to the statement of profit or loss.

3.3.4 Offsetting of financial assets and liabilities

Financial assets and financial liabilities are offset and the net amount is reported in the financial statements when there is a legally enforceable right to set off the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

Revenues and expenses are presented on a net basis only when permitted by the accounting and reporting standards as applicable in Pakistan.

3.3.5 Business model

The business model reflects how the Company manages the assets in order to generate cash flows. That is, whether the objective is solely to collect the contractual cash flows from the assets or is to collect both the contractual cash flows and cash flows arising from the sale of assets. If neither of these is applicable (e.g. financial assets are held for trading purposes), then the financial assets are classified as part of 'other' business model and measured at FVPL. Factors considered by the Company in determining the business model for a group of assets include past experience on how the cash flows for these assets were collected, how the asset's performance is evaluated and reported to key management personnel, how risks are assessed and managed and how managers are compensated.

3.3.6 Solely payment of principal and interest

Where the business model is to hold assets to collect contractual cash flows or to collect contractual cash flows and sell, the Company assesses whether the financial instruments' cash flows represent solely payments of principal and interest (the 'SPPI test'). In making this assessment the Company considers whether the contractual cash flows are consistent with a basic lending arrangement i.e. interest includes only consideration for the time value of money, credit risk, other basic lending risks and a profit margin that is consistent with a basic lending arrangement. Where the contractual terms introduce exposure to risk or volatility that are inconsistent with a basic lending arrangement, the related financial asset is classified and measured at fair value through profit or loss.

3.3.7 Reclassifications

The Company reclassifies debt investments when and only when its business model for managing those assets changes. The reclassification takes place from the start of the first reporting period following the change. Such changes are expected to be very infrequent and none occurred during the year.

3.4 Investment in associated undertakings

An associate is an entity in which the Company has a significant influence and which is neither a subsidiary nor a joint venture. Associates are accounted for using equity method of accounting after initially being recognised at cost.

These financial statements include the Company's share of total recognised gains and losses of associates on the equity accounting basis, from the date significant influence commences until the date that significant influence ceases. The Company's share of the associates profit or loss is recognised in the statement of profit or loss. Distributions received from an associate reduce the carrying amount of the investment. When the Company's share of losses exceeds its interest in an associate, the investment's carrying amount is reduced to nil and recognition of further losses is discontinued except to the extent that the Company has incurred legal or constructive obligation.

3.5 Taxation

Current

Provision for current tax is based on taxable income at the current rates of taxation after taking into account tax credits and rebates available, if any, and taxes paid under the final tax regime. The charge for current tax also includes adjustments where necessary, relating to prior years which arise from assessments framed / finalised during the year.

Deferred

Deferred tax is recognised using the balance sheet liability method on all temporary differences arising between the carrying amount of assets and liabilities for financial reporting purposes and the amount used for taxation purposes. Deferred tax liabilities are recognised on all taxable temporary differences.

Deferred tax asset is recognised for all deductible temporary differences only to the extent that it is probable that future taxable profits will be available against which the asset can be utilised. Deferred tax is charged or credited to the statement of profit or loss if the tax relates to items that are charged or credited to the statement of profit or loss and to other comprehensive income if the tax relates to items that are charged or credited to other comprehensive income.

Deferred tax assets and liabilities are measured using the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on the tax rates (and tax laws) that have been substantively enacted at the reporting date.

3.6 Impairment of non-financial assets

The carrying amount of the assets is reviewed at each reporting date to determine whether there is any indication of impairment loss. If such indication exists, the carrying amounts of such assets are reviewed to assess whether they are recorded in excess of their recoverable amounts. Where carrying values exceed the respective recoverable amounts, assets are written down to their recoverable amounts and the resulting impairment charge is recognised in the statement of profit or loss.

3.7 Deposits and other receivables

Deposits and other receivables are carried at amortised cost, less expected credit loss allowance determined in accordance with the accounting policy as mentioned in note 3.3.1.2. Bad debts are written off when identified.

3.8 Staff retirement benefits

The Company operates an approved funded contributory provident fund for all its permanent employees to which equal monthly contributions are made both by the Company and the employees at the rate of 8.33% of basic salary.

3.9 Cash and cash equivalents

Cash and cash equivalents comprise of bank balances and short term highly liquid investments with original maturity of three months or less which are readily convertible to known amounts of cash and are subject to an insignificant risk of changes in value are carried in the statement of financial position at cost.

3.10 Trade and other payables

Liabilities for trade and other amounts payable are carried at cost, which is the fair value of consideration to be paid in the future for goods and services whether or not billed to the Company.

3.11 Provisions, contingent assets and contingent liabilities

Provisions are recognised when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the obligation can be made. The amount recognised represents the best estimate of the expenditure required to settle the obligation at the reporting date. Provisions are reviewed at each reporting date and are adjusted to reflect the current best estimate. Provisions are not recognised for future operating losses.

Contingent assets are disclosed when there is a possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company. Contingent assets are not recognised until the inflow of economic benefits is virtually certain.

Contingent liability is disclosed when:

- there is a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company; or

- there is a present obligation that arises from past events but it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation or the amount of the obligation cannot be measured with sufficient reliability.

3.12 Revenue recognition

The core principle of IFRS 15 is that an entity will recognise revenue to depict the transfer of promised goods or services to customers for an amount that reflects the consideration to which the entity expects to be entitled to in exchange for those goods or services. This core principle is delivered in five steps as follows:

- Identify the contract with customer.
- Identify the performance obligation in the contract.
- Determine transaction price.
- Allocate the transaction price to the performance obligation in the contract.
- Recognize the revenue when (or as) the entity satisfies a performance obligation.

Revenue is recognised when the services have been rendered by the Company and received by the customer and there is no unfulfilled obligation that could affect the customer's acceptance of the service. Revenue of different streams is recognised as follows:

- Management fee from collective investment schemes and voluntary pension schemes is calculated by charging the specified rates within the limit allowed under the NBFC Regulations to the net assets of such schemes as at the close of business of each calendar day. The performance obligation is satisfied at the close of business day for each scheme and payment is generally due at the end of each month;

- Investment advisory fee from the discretionary portfolios is calculated on a daily basis by charging specified rates to the net assets of the portfolios as stated in the respective agreements with the clients. The performance obligation is satisfied at the close of business day for each portfolio and payment is generally due either at the end of each quarter or six months based on the agreement terms;

- Performance based remuneration for investment advisory services and management of discretionary portfolio are accrued once the terms of the contract are honoured and the Company achieves the performance condition at the end of the period. The performance obligation is, therefore, satisfied at the end of agreement period or at the time of termination of agreement and payment becomes due at the end of the aforementioned period;

- Share of profit from associates is recorded under equity accounting as per IAS 28 - 'Investments in Associates and Joint Ventures';

- Capital gains / losses arising on sale of investments is recognised in the statement of profit or loss on the date at which transaction takes place;

- Load income is recognised once the services are provided to the unit holders in connection with their investments in collective investment schemes managed by the Company. The performance obligation is satisfied at the time of providing the service to the unit holders and payment becomes due at the end of each month;

- Unrealised appreciation / (diminution) arising on re-measurement of investments classified as 'financial assets at fair value through profit or loss' are included in the Income Statement in the year in which these arise;

- Dividend income is recorded when the right to receive the dividend is established;

- Markup on bank deposits and investments is recognised on an accrual basis using effective interest rate method;

- Mark-up on loans to employees is recognised on an effective interest rate basis; and

- Other income is recognised on an accrual basis.

3.13 Earnings per share

The Company presents basic and diluted earnings per share (EPS) for its shareholders. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the year. Diluted EPS is determined by adjusting the profit or loss attributable to ordinary shareholders and the weighted average number of ordinary shares outstanding for the effects of dilutive potential ordinary shares, if any.

3.14 Loans, advances, deposits, prepayments and long term deposits

These are initially recognised at cost, which is the fair value of the consideration given. Subsequent to initial recognition, assessment is made at each statement of financial position date to determine whether there is an indication that an asset or group of assets may be impaired. If such indication exists, the estimated recoverable amount of that asset or group of assets is determined and any impairment loss is recognised for the difference between the recoverable amount and the carrying value. Prepayments are amortised over the period for which the services are obtained.

3.15 Share capital and reserves

Ordinary shares are classified as equity and recognized at their face value. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

Reserves comprise of capital and revenue reserves. Capital reserves represent share premium and deficit on amalgamation while revenue reserve comprise of unappropriated profit. The purpose of general reserve includes, but not limited to, fulfilling various business needs like meeting contingencies, offsetting future losses, enhancing the working capital, etc.

3.16 Proposed dividend and transfer between reserves

Dividends declared and transfers between reserves made subsequent to the reporting date are considered as non-adjusting events and are recorded as liability in the year in which these are approved by the directors / shareholders as appropriate.

3.17 Foreign currency transactions and translation

Transactions in foreign currencies are translated into Pakistani Rupees at the foreign exchange rates prevailing on the date of transaction. Monetary assets and liabilities in foreign currencies are translated into Pakistani Rupees at the rates of exchange approximating those at the statement of financial position date. Exchange gains / losses resulting from the settlement of transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are taken to the statement of profit or loss.

3.18 Lease liability and right-of-use assets

At inception of a contract, the Company assesses whether a contract is, or contains, a lease based on whether the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

In determining the lease term, management considers all facts and circumstances that create an economic incentive to exercise an extension option or not exercise a termination option. Extension options (or periods after termination options) are only included in the lease term if the lease is reasonably certain to be extended (or not terminated).

The lease liability is initially measured at the present value of the lease payments over the period of lease term and that are not paid at the commencement date, discounted using the interest rate implicit in the lease, or if that rate cannot be readily determined, the Company's incremental borrowing rate.

Lease payments include fixed payments less any lease incentive receivable, variable lease payment that are based on an index or a rate which are initially measured using the index or rate as at the commencement date, amounts expected to be payable by the Company under residual value guarantees, the exercise price of a purchase option if the Company is reasonably certain to exercise that option and payments of penalties for terminating the lease if the lease term reflects that the lessee will exercise that option. The extension and termination options are incorporated in determination of lease term only when the Company is reasonably certain to exercise these options.

The lease liability is subsequently measured at amortised cost using the effective interest rate method. The lease liability is also remeasured to reflect any reassessment or lease modification, or to reflect revised in-substance fixed lease payment.

The lease liability is remeasured when the Company reassesses the reasonable certainty to exercise extension or termination option upon occurrence of either a significant event or a significant change in circumstances, or when there is a change in assessment of an option to purchase an underlying asset, or when there is a change in amount expected to be payable under a residual value guarantee, or when there is a change in future lease payments resulting from a change in an index or rate used to determine those payments. The corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in the statement of profit or loss if the carrying amount of right-of-use asset has been reduced to zero.

When there is a change in scope of a lease, or the consideration for a lease, that was not part of the original terms and conditions, the same is accounted for as a lease modification. The lease modification is accounted for as a separate lease if modification increases the scope of lease by adding the right to use one or more underlying assets and the consideration for lease increases by an amount that is commensurate with the standalone price for the increase in scope adjusted to reflect the circumstances of the particular contract, if any. When the lease modification is not accounted for as a separate lease, the lease liability is remeasured and corresponding adjustment is made to right-of-use asset.

The right-of-use asset is initially measured at an amount equal to the initial measurement of lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of the costs to be incurred to dismantle and remove the underlying asset or to restore the underlying asset or the site on which the asset is located.

5.2 Intangible assets include items costing Rs. 94.977 million (2025: Rs. 55.560 million) which are fully amortised as of June 30, 2026 but are still in active use of the Company.

5.3 Pursuant to the scheme of amalgamation for the transfer of the entire business of MCB AMC to AHIL including all the properties, rights, title and interest as disclosed in note 1.1 to these financial statements which was entered between AHCL and MCB Bank Limited, intangible assets comprising of management rights and goodwill aggregating to Rs. 192 million and Rs. 82.127 million respectively were recognised in the financial statements for the year ended June 30, 2011.

5.4 As at June 30, 2026, the carrying values of management rights and goodwill amounted to Rs. 192 million and Rs. 82.127 million, respectively. In accordance with IAS 36, Impairment of Assets, the Company annually assesses these assets for impairment. The recoverable amounts are determined based on value-in-use (VIU) calculations, using management's five-year cash flow forecasts, with cash flows beyond this period extrapolated using an estimated growth rate. For the prior year's impairment assessment, management applied a discount rate of 18.60% and a terminal growth rate of 6.10% in the value in use calculations.

The VIU calculations involve key assumptions including discount rate, terminal growth rate, management fee rates, cost-to-income ratios and growth in funds under management.

IAS 36 permits use of the most recent detailed recoverable amount calculation from a preceding period provided all of the following criteria are met;

1) the assets and liabilities of the related cash-generating unit have not changed significantly;

2) the prior calculation exceeded the carrying amount by a substantial margin; and

3) based on subsequent events and circumstances, it is remote that the current recoverable amount would be below the carrying amount.

As these conditions are met Company has used the previous year's recoverable amount calculation for the current year impairment assessment.

17.1 As a consequence of the 18th amendment to the Constitution of Pakistan, in May 2015 the Sindh Workers' Welfare Fund Act, 2014 (SWWF Act) had been passed by the Government of Sindh as a result of which every industrial establishment, including financial institutions, located in the Province of Sindh, the total income of which in any accounting year is not less than Rs 0.50 million, is required to pay Sindh Workers' Welfare Fund (SWWF) in respect of that year a sum equal to two percent of such income. The matter was taken up by MUFAP with the Sindh Revenue Board (SRB) collectively on behalf of various asset management companies and their CISs whereby it was contested that AMCs and mutual funds should be excluded from the ambit of the SWWF Act as these were not industrial establishments. The MUFAP has also taken up the matter with the Sindh Finance Ministry to have AMC's excluded from the applicability of SWWF. In view of the above developments regarding the applicability of SWWF on AMC's, the management as a matter of abundant caution, has made provision in respect of SWWF on a prudent basis with effect from the date of enactment of the SWWF Act (i.e. starting from July 1, 2014).

17.2 The Finance Act, 2013 enlarged the scope of Federal Excise Duty (FED) on financial services to include Asset Management Companies (AMCs) as a result of which FED at the rate of 16 percent on the remuneration of the Company and sales load was applicable with effect from June 13, 2013. The Company was of the view that since the remuneration was already subject to provincial sales tax, further levy of FED would result in double taxation which did not appear to be the spirit of the law. Hence, on September 4, 2013 a constitutional petition was filed with the Sindh High Court (SHC) by the Company together with various other asset management companies challenging the levy of FED.

With effect from July 1, 2016, FED on services provided or rendered by non-banking financial institutions dealing in services which are subject to provincial sales tax has been withdrawn by the Finance Act, 2016.

During the year ended June 30, 2017, the SHC passed an order whereby all notices, proceedings taken or pending, orders made, duty recovered or actions taken under the Federal Excise Act, 2005 in respect of the rendering or providing of services (to the extent as challenged in any relevant petition) were set aside. In response to this, the Deputy Commissioner Inland Revenue has filed a Civil Petition for leave to appeal in the Supreme Court of Pakistan which is pending adjudication.

In view of the above, the Company has discontinued making further provision in respect of FED with effect from July 1, 2016. However, as a matter of abundant caution, the provision for FED already made amounting to Rs. 412.893 million is being retained in the financial statements of the Company as the matter is pending before the Supreme Court of Pakistan. A corresponding receivable of the same amount has been recorded as receivable from the Funds under the management of the Company as disclosed in note 9.1 to these financial statements.

The Management Company jointly with other Asset Management Companies through the trustees of their Collective Investment Schemes challenged the above notice vide a petition filed on July 8, 2014 in the Honourable Sindh High Court (SHC). The SHC had ordered suspension of the show cause notice in its order dated July 10, 2014 till the date of the next hearing of appeals. 37 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

37.1 Financial risk factors

The Company is exposed to the following in respect of financial instruments:

- Credit risk;
- Liquidity risk;
- Market risk; and
- Operational risk.

The Board of Directors (the Board) of the Company has the overall responsibility for establishment and oversight of the Company's risk management framework. To assist the Board in discharging its oversight responsibility, the management has been made responsible for identifying, monitoring and managing the Company's financial risk exposure. The Company's overall risk management program focuses on the unpredictability of financial markets and seek to minimize potential adverse effects on the Company's financial performance.

37.2 Credit risk

Credit risk is a risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss, without taking into account the fair value of any collateral. Concentration of credit risk arises when a number of financial instruments or contracts are entered into with same party, or when counter parties are engaged in similar business activities, or activities in the same geographical region, or have similar economic features that would cause their ability to meet contractual obligations to be similarly effected by change in economics, political or other conditions. Concentration of credit risk indicates the relative sensitivity of the Company's performance to developments affecting a particular industry.

The Company's portfolio of financial instruments is broadly diversified and transactions are entered into with diverse credit-worthy counterparties thereby mitigating any significant concentrations of credit risk.

Details of the Company's concentration of credit risk of financial assets are as follows:

	2026		2025

Difference in the balance as per the statement of assets and liabilities and maximum exposure is due to the fact that investment in market treasury bills are not exposed to credit risk and have been excluded from the above analysis as these are guaranteed by the Government of Pakistan. Furthermore, cash in hand is also not exposed to credit risk.

37.3 Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulties in raising funds to meet its obligations and commitments associated with financial instruments. The Company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation. The Company manages liquidity risk by monitoring future cash flows on a day-to-day basis.

The table below summaries the maturity profile of the financial instruments. The analysis into relevant maturity groupings is based on the remaining period at the end of the reporting period to the contractual maturity date. Operational risks arise from all of the Company's activities.

The Company's objective is to manage operational risk so as to balance financial losses and damage to its reputation with achieving its investment objective of generating returns for investors.

The primary responsibility for the development and implementation of controls over operational risk rests with the Board of Directors. This responsibility encompasses the controls in the following areas:

Presently, the Company holds market treasury bills which expose the Company to fair value interest rate risk. In case of 100 basis points increase / decrease in applicable rates on the last repricing date with all other variables held constant, the net profit for the year and net assets of the Company would have been higher / lower by Rs. 6.85 million (2025: Rs. 4.55 million).

Yield / interest rate sensitivity position of on balance sheet financial instruments is based on earlier of contractual repricing or maturity date and for off balance sheet instruments is based on the settlement date.

39 FAIR VALUE MEASUREMENT

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Consequently, differences can arise between carrying values and the fair value estimates.

Underlying the definition of fair value is the presumption that the Company is a going concern without any intention or requirement to curtail materially the scale of its operations or to undertake a transaction on adverse terms.

The estimated fair value of all financial assets and liabilities is considered not to be significantly different from carrying values as the items are either short-term in nature or are periodically repriced.

39.1 Fair value hierarchy

International Financial Reporting Standard 13, 'Fair Value Measurement' requires the Company to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2: inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and
- Level 3: inputs for the asset or liability that are not based on observable market data (i.e. unobservable inputs).

Valuation techniques used in determination of fair values within level 2

Items	Valuation technique
Market Treasury Bills	The fair value of investments in Market Treasury Bills is determined based on the PKRV rates as published at the close of each business day by the Mutual Funds Association of Pakistan.

As at June 30, 2026 and June 30, 2025, the Company held the following financial instruments measured at fair value:
