The risks emanate from various factors that include, but are not limited to:

- (1) **Interest Rate Risk¹⁴** - A rise or decline in interest rates during the investment term may result in a change in return provided to the investors
- (2) **Government Regulation Risk** – Government policies or regulations are more prevalent in some securities and financial instruments than in others. Funds that invest in such securities may be affected due to change in these regulations or policies, which directly or indirectly

- (7) **Reinvestment Rate Risk** –In a declining interest/ markup rate economic environment, there is a risk that maturing securities or coupon payments will be reinvested at lower rates, which shall reduce the return of the Fund compared to return earned in the preceding quarters.
- (8) **Events Risk** - There may be adjustments to the performance of the Fund due to events including but not limited to, natural calamities, market disruptions, mergers, nationalization, insolvency and changes in tax law.
- (9) **Redemption Risk** - There may be special circumstances in which the redemption of Units may be suspended or the redemption payment may not occur within six working days of receiving a request for redemption from the investor.
- (10) **Shari'ah non-compliance Risk** - The risk associated with employing funds in investments that are not compliant with Shariah.
- (11) ¹⁵**Distribution Risk**: Dividends distribution may also be liable to tax because the distributions are made out of the profits earned by fund and not out of the profits earned by each unit holder.
