REPORT OF THE DIRECTOR OF THE MANAGEMENT COMPANY FOR THE YEAR ENDED JUNE 30, 2019

Dear Investor,

On behalf of the Board of Directors, we are pleased to present **Pakistan Income Enhancement Fund** accounts review for the year ended June 30, 2019.

ECONOMY AND MONEY MARKET OVERVIEW

Pakistan's economy inherited myriad of challenges entering into fiscal year 2019, particularly a weak balance of payment and fiscal situation. The macroeconomic imbalances were coped with vigilant policy actions from central bank which resultantly took its toll on the economic growth. Gross Domestic Product (GDP) growth as per the preliminary estimates slowed down to 3.3% compared to 5.2% witnessed during the preceding year. All the three major sectors namely Agriculture, Industrial, and Services witnessed a slowdown posting growth of 0.9%, 1.4% and 4.7% respectively. Agricultural growth faltered as growth in major crops receded, evident from the decline in production of Sugarcane, Cotton & Rice which fell by 19.4%, 17.5% and 3.3% respectively. Industrial growth also weakened as large scale manufacturing (LSM) could not bear the brunt of contractionary policies pursued by central bank to achieve macroeconomic stabilization. LSM posted a decline of 3.7% as industries dependent on government spending and imports faced reduced demand. Among the major LSM sectors, Automobiles and Iron & Steel witnessed a demand contraction of 11.7% and 11.2% respectively. Nevertheless, Services sector provided some rescue to the economic growth, thanks to Finance and Insurance (up 5.4% YoY) and Government Services (up 8.0% YoY). Dollar denominated size of GDP stood at USD ~280 billion compared to USD ~315 billion in the last year, witnessing a contraction of 11%.

At the onset of year, Pakistan was plagued by one of the biggest balance of Payment crisis in its history. While it was facing a Current Account Deficit (CAD) north of USD 19 billion and external repayments worth USD 9 billion, the crisis was compounded by the fact that foreign exchange reserves of mere USD ~10 billion were at hand. Timely policy action by the central bank particularly adjusting the currency by 32% during the year helped in arresting the CAD. Real Effective Exchange Rate (REER) dropped from the overvalued territory in June 18 to become undervalued by 10%. Resultantly, the CAD contracted by 32.1% to USD 13.5 billion during the year. While exports growth did not materialize, improvement in CAD was driven from declining imports of Non-oil goods and services (down 11.8% YoY) and improved remittances (up 9.7% YoY). Default on loan obligations was also averted after Pakistan was successful in getting material inflows (USD ~10 billion) from its friendly allies. Although, narrowing current account deficit along with bilateral flows did provide some breathing space to the balance of payment, State Bank of Pakistan's (SBP) foreign reserves still declined by USD 2.5 billion to USD 7.5 billion due to the gravity of external crisis. At last, Pakistan also signed up for an IMF program during the month of May'19, putting all uncertainty to an end on the external front. The staff level agreement of USD 6.2 billion was reached for a period of three years.

The headline inflation as represented by Consumer Price Index (CPI) accelerated to an average of 7.3% in FY19 compared to 3.9% in the last year. Higher utility tariffs particularly a hike in gas prices (up ~64% YoY) and increased petroleum prices (up ~23% YoY) contributed to the rise in inflation. The regulator allowed for adjustments in utility tariffs as government eliminated the subsidies, while petroleum prices were adjusted after PKR depreciated by more than 30% against USD during the year. Similarly, the lagged impact of PKR depreciation resulted in more pronounced inflation in the second half which increased to an average of 8.6%, compared to 6.0% witnessed in the first half of the fiscal year. In order to control inflation and bring stability to the macroeconomic imbalances, the central bank continued its monetary tightening and increased the interest rates by 575 bps during the course of the year.

Fiscal books of the government continued to deteriorate, with the fiscal deficit reaching an unprecedented 8.9% of the GDP. Total revenue declined by 6% during the year, marred by a sharp drop in non-tax revenue of 44% during the period. Surplus profitability from SBP collapsed to nearly zero, after central bank recorded massive exchange losses due to currency devaluation. Tax collection also remained dismal as YoY collection remained flat, owing to tax exemptions announced in the last budget and a weak economy. On the other hand, total expenditures increased by 11%, despite a 25% cut in development spending. The increase in expenditures was propelled by a surge in current expenditures, particularly as

REPORT OF THE DIRECTOR OF THE MANAGEMENT COMPANY FOR THE YEAR ENDED JUNE 30, 2019

the debt servicing costs escalated by 40% YoY due to increase in interest rates. Government relied on domestic sources to fund its deficit, as financing from external sources (Multilateral agencies) dried up since IMF program was not available during the most part of the year. Within the domestic channel, the government relied heavily on central bank borrowing as nearly 70% of the borrowing out of PKR 3 trillion was funded through SBP.

On the money market side, the yield curve shifted on upward trajectory after record monetary tightening by the central bank during the fiscal year. SBP cited rising inflation, twin deficits and declining forex reserves as the prime reasons behind the policy decisions. In the first half of fiscal year, concerns over external front along with unadjusted policy decisions kept market participants at bay from longer tenor instruments. However, by the end of the fiscal year as the policy adjustments were fully in place, market participants drew much comfort which resulted in a massive demand for longer tenor bonds. In fact, the yield curve turned inverted as 10 Year PIB's traded at much lower level compare to short term security papers.

During the year, SBP persistently tried to develop the market for floating rate bonds by conducting regular auctions. The central bank accepted a cumulative amount of PKR 714 billion at a credit spread of 70-75 bps over base rate (6M T-bill yield). On the other hand, the government matured PKR 314 billion of Ijara Sukuks causing a dearth of Shariah Compliant avenues. However, to fund the circular debt, SBP introduced Pakistan Energy SUKUK amounting to PKR 200 billion exclusively for Islamic Banks at 80 bps premium over base rate. Nevertheless, liquidity position throughout the period remained comfortable owing to regular OMOs conducted by SBP.

FUND PERFORMANCE

During the period under review, the fund generated an annualized return of 7.84% against its benchmark return of 11.33%.

WAM of fund stood at 1.8 years. The fund was mainly invested in Cash & Treasury Bills.

At period-end, the fund was 42.8% invested in Cash, 33.4% in Treasury Bills, 22.5% in TFCs. The Net Assets of the fund as at June 30, 2019 stood at Rs. 698 million as compared to Rs. 1,350 million as at June 30, 2018 registering a decrease of 48.29%.

The Net Asset Value (NAV) per unit as at June 30, 2019 was Rs. 53.1512 as compared to opening NAV of Rs. 55.8399 per unit as at June 30, 2018 registering a decrease of Rs. 2.6887 per unit.

FUTURE OUTLOOK

Policy adjustments by the central bank will result in macroeconomic consolidation thus restricting the economic growth in low single digits. IMF forecasts Pakistan GDP growth to slow down to 2.5% in FY20, in the wake of tightening policies pursued by the government. Industrial growth will remain muted particularly for the import-driven consumption based sectors. However, export driven industrial companies can provide some respite as the government has incentivized the above, while increased power supply also eliminates bottleneck for them.

Balance of Payment worries are over for now as current account deficit has adjusted to reasonable level since the policy actions taken by the central government. The beginning for the year has been very promising as CAD for July'19 shrank to USD ~600 million, compared to USD ~2,000 million seen during the same period of last year. Our forecast at very conservative assumptions is that CAD will settle at 2.7% of GDP. We have assumed crude oil prices at USD 70/BBL, which are currently hovering near USD 60/BBL. After signing up for an IMF program, Pakistan will be able to finance its gross finance requirements by tapping into international avenues. Saudi deferred oil facility will also provide a short term buffer to foreign exchange reserves. We expect foreign exchange reserves to increase to USD ~13 billion (up 1.8x) by the end of the current fiscal year. With PKR aligned to its equilibrium levels (Jun'19 REER at 91) and current account deficit in a sustainable range, PKR should now depreciate nominally based on its historical average.

REPORT OF THE DIRECTOR OF THE MANAGEMENT COMPANY FOR THE YEAR ENDED JUNE 30, 2019

Inflation is expected to pick up to an average of 11.7% in FY20 compared to 7.3% witnessed during the last year. Multiple reasons are attributed for the surge in inflation. Firstly, the government is aiming to recover the full cost of utilities resulting in the price adjustment of utilities. Secondly, tax exemptions provided to multiple industries have been withdrawn causing a hike in prices. Finally, we have assumed PKR to be north of 170 against USD by the end of fiscal year, while crude oil is assumed at USD 70/BBL which will keep the overall CPI high. Nevertheless, we expect core inflation as represented by Non Food Non Energy (NFNE) to average below 10.0% for the year. We deem that current real interest rate is sufficient to cater for the expected inflation, therefore, in general we do not expect any further increase in interest rates. However, more than expected inflation and any deterioration in fiscal accounts can result in modest tightening in the monetary policy.

On the fiscal side, the government is aiming to limit fiscal deficit at 7.4% of GDP for the year. While the final target for fiscal deficit can evolve, nevertheless, it has to meet the primary condition of IMF for limiting the primary deficit at 0.6% of GDP. For this purpose, FBR is targeting an ambitious tax collection of PKR 5.5 trillion (up 35% YoY). The budget presented in the parliament proposed PKR 600-700 billion of tax measures, while the remaining amount was kept contingent on FBR efforts and economic growth. On the expenditure side, the government is aiming for austerity measures on the current expenditure side, however, it is aiming for an expansionary Public Sector Development Program (PSDP) of PKR 1.7 trillion (up 40% YoY). We believe the tax collection target to be highly optimistic and expect a shortfall of PKR ~300-400 billion. As a result, the axe can fall on the development spending.

بورڈ آف ڈائریکٹرز کی جانب سے 30 جون 2019ء کو ختم ہونے والے سال کے لیے پاکستان انکم انہاسمنٹ فنڈ کے اکاؤنٹس کا جائزہ پیش خدمت ہے۔

معیشت اور بازار کا مجموعی جائزہ

پاکستان کی معیشت کو مالی سال 2019ء میں داخل ہوتے ہوئے بے شمار چیلنجز ورثے میں ملے، خاص طور پر ادائیگی کے توازن اور مالیات کی کمزور صورتحال۔ گلاں معاشیات کے غیر متوازن عناصر سے نمٹنے کے لیے مرکزی بینک نے چوکنے پالیسی اقدامات کیے جن کے نتیجے میں معاشی ترقی متاثر ہوئی۔ مجموعی ملکی پیداوار (GDP) کی ترقی ابتدائی تخمینوں کے مطابق سال گزشتہ (5.2 فیصد) کے مقابلے میں کم ہو کر 3.3 فیصد رہ گئی۔ تینوں بڑے شعبہ جات یعنی زراعت، صنعت اور سروسز سٹ روی کا شکار ہوئے اور ان کی ترقی کی شرح بالترتیب 0.9 فیصد، 1.4 فیصد اور 4.7 فیصد رہی۔ اہم فصلوں کی نمو میں گراوٹ کے سبب زرعی ترقی بھی پسماندگی کا شکار ہوئی جس کا اظہار گئے، کپاس اور چاول کی پیداوار میں بالترتیب 19.4 فیصد، 17.5 فیصد اور 3.3 فیصد کمی سے ہوتا ہے۔ صنعتی ترقی بھی کمزوری کا شکار ہوئی کیونکہ بڑے پیمانے کی پیداوار (LSM) مرکزی بینک کی گلاں معاشیاتی استحکام کے حصول کے لیے اختیار کردہ کانٹریکشنری (حکومتی خرچ یا مالیاتی توسیع کی شرح میں کمی پر مبنی) پالیسیوں کا خمیازہ برداشت نہیں کر سکی۔ LSM میں 3.7 فیصد کمی ہوئی کیونکہ حکومتی خرچ اور درآمدات پر انحصار کرنے والی صنعتوں کو مانگ میں کمی کا سامنا ہوا۔ LSM کے اہم شعبہ جات میں گاڑیوں کے شعبے میں 11.7 فیصد اور لوہے اور اسٹیل کے شعبے میں 11.2 فیصد مانگ کا تضاد ہوا۔ تاہم سروسز کے شعبے نے معاشی ترقی کو کچھ حد تک ڈھال فراہم کیا جس کا سہرہ فائننس اینڈ انشورنس (5.4 فیصد YoY ترقی) اور حکومتی سروسز (8.0 فیصد YoY ترقی) کے سر جاتا ہے۔ GDP کا ڈالر کے اعتبار سے حجم 280 بلین ڈالر تھا جو سال گزشتہ (315 بلین ڈالر) کے مقابلے میں 11 فیصد تضاد ہے۔

سال کے آغاز پر ہی پاکستان اپنی تاریخ کے سب سے بڑے ادائیگی کے توازن کے بحران کا شکار ہوا۔ اگرچہ اسے 19 بلین ڈالر کرنٹ اکاؤنٹ خسارے (CAD) اور 9 بلین ڈالر خارجی ادائیگی نو کا سامنا تھا لیکن یہ بحران شدت اختیار کر گیا کیونکہ غیر ملکی زرمبادلہ کے ذخائر صرف 10 بلین ڈالر رہ گئے تھے۔ مرکزی بینک کے بروقت پالیسی اقدام، خاص طور پر دوران سال روپے میں 32 فیصد ترمیم سے CAD پر قابو پانے میں مدد ملی۔ حقیقی مؤثر شرح مبادلہ (REER) جون 2018ء کے اصل سے زائد قدر کی سطح سے نیچے آئی اور اصل سے 10 فیصد کم قدر کی حامل ہو گئی۔ نتیجتاً CAD دوران سال 32.1 فیصد سکڑ کر 13.5 بلین ڈالر ہو گیا۔ اگرچہ برآمدات میں ترقی نہیں ہو سکی لیکن CAD میں بہتری کے اسباب تیل کے علاوہ والی اشیاء اور سروسز کی درآمدات میں 11.8 فیصد YoY (یور اور یور) کمی اور ترسیلات زر میں 9.7 فیصد YoY اضافہ ہے۔ پاکستان کے دوستانہ حلیفوں سے مادی درآمدات زر (10 بلین ڈالر) حاصل کرنے میں کامیابی کے بعد ادائیگی قرض میں کوتاہی بھی مل گئی۔ اگرچہ CAD میں کمی کے ساتھ ساتھ رقوم کی دوطرفہ آمد و رفت سے ادائیگی کے توازن کا کچھ سانس بحال ہوا لیکن خارجی بحران کی شدت کے باعث اسٹیٹ بینک آف پاکستان (SBP) کے غیر ملکی زرمبادلہ کے ذخائر 2.5 بلین ڈالر کم ہو کر 7.5 بلین ڈالر رہ گئے۔ علاوہ ازیں، ماہ مئی 2019ء کے دوران پاکستان نے بالآخر آئی ایم ایف پروگرام پر دستخط کر دیئے جس سے خارجی میدان میں تمام غیر یقینیوں کا خاتمہ ہو گیا۔ 2.6 بلین ڈالر کا اسٹاف لیول معاہدہ تین برسوں کی مدت کے لیے عمل میں آیا۔

مالی سال 2019ء میں صارفی قیمت کے انڈیکس (CPI) کے مطابق افراط زر مزید تیز رفتار ہو کر 7.3 فیصد کے اوسط تک پہنچ گئی جبکہ گزشتہ سال یہ اوسط 3.9 فیصد تھا۔ افراط زر میں اضافے میں یوٹیلٹی کے بلند ترین، خاص طور پر گیس کی قیمتوں میں (64 فیصد YoY) اضافہ اور پٹرول کی قیمتوں میں

(23 فیصد YoY) اضافہ سرگرم عمل ہیں۔ سبسڈیز کے خاتمے کے حکومتی اقدام سے یوٹیلیٹی کے نرخ میں ترمیم کا موقع ملا، جبکہ پٹرول کی قیمتوں میں ترمیم دوران سال روپے کی قدر ڈالر کے مقابلے میں 30 سے زائد فیصد گر جانے کے بعد کی گئی۔ اسی طرح، روپے کی قدر میں کمی کے سبب رفتار اثر کے نتیجے میں افراط زر مالی سال کے نصف ثانی میں شدید تر ہو کر 8.6 فیصد اوسط تک پہنچ گئی جبکہ نصف اول میں 0.6 فیصد تھی۔ افراط زر پر قابو پانے اور گلاں معاشیاتی غیر متوازن عناصر میں استحکام پیدا کرنے کے لیے مرکزی بینک نے مالیاتی سختی کا عمل جاری رکھتے ہوئے انٹریسٹ کی شرحوں میں دوران سال 575 بیسیس پوائنٹس (bps) کا اضافہ کیا۔

حکومت کے مالیاتی اعداد میں پسماندگی کا سلسلہ جاری رہا اور مالیاتی خسارہ GDP کے 8.9 فیصد تک پہنچ گیا جس کی نظیر نہیں ملتی۔ گل آمدنی میں دوران سال 6 فیصد کمی ہوئی جس کا سبب غیر ٹیکس آمدنی میں دوران مدت 44 فیصد سنگین گراؤ ہے۔ روپے کی قدر میں کمی کے باعث مرکزی بینک کو زرمبادلہ کے خطرہ خسارہ جات کا سامنا ہوا اور SBP سے اضافی منافع کے گنجائش تقریباً صفر ہو گئی۔ ٹیکس وصولی بھی مایوس کن رہی کیونکہ گزشتہ بجٹ میں اعلان کردہ ٹیکس استثنائات اور مجموعی طور پر کمزور معیشت کے باعث YoY وصولی میں کوئی اضافہ نہیں ہوا۔ دوسری جانب ترقیاتی خرچ میں 25 فیصد کمی کرنے کے باوجود گلاں اخراجات میں 11 فیصد اضافہ ہوا۔ اخراجات کے اضافے کو کرنٹ اخراجات میں اضافے نے مزید ہوا دی جس کا اہم سبب انٹریسٹ کی شرحوں میں اضافے کے سبب ادائیگی قرض میں 40 فیصد YoY اضافہ ہے۔ حکومت نے اپنے خسارے کی تلافی کے لیے مقامی ذرائع پر انحصار کیا کیونکہ سال کے اکثر حصے کے دوران آئی ایم ایف پروگرام کی عدم دستیابی کے باعث خارجی ذرائع (کثیر الجہتی ایجنسیاں) غیر مفید ہو گئے تھے۔ مقامی ذرائع میں حکومت نے سب سے زیادہ انحصار سینٹرل بینک پر کیا کیونکہ 3 ٹریلین روپے قرض میں سے تقریباً 70 فیصد کا انتظام SBP کے ذریعے کیا گیا۔

دوران مالی سال مرکزی بینک کی طرف سے تاحال سب سے زیادہ مالیاتی سختی کے باعث بازار زر کا پیداواری خم بلندی کی طرف مائل ہوا۔ SBP نے بڑھتی ہوئی افراط زر، جڑواں خساروں اور زرمبادلہ کے گھٹتے ہوئے ذخائر کو پالیسی سے متعلق فیصلوں کے عوامل قرار دیا۔ مالی سال کے نصف اول میں خارجی میدان کے ساتھ ساتھ پالیسی کے غیر ترمیم شدہ فیصلوں سے متعلق خدشات نے مارکیٹ کے شرکاء کو طویل تر میعاد کے انسٹرومنٹس سے دور رکھا۔ تاہم مالی سال کے اختتام کے قریب جب پالیسی کی ترمیمات پوری طرح نافذ ہو گئیں تب مارکیٹ کے شرکاء نے سکون کا سانس لیا جس کے نتیجے میں طویل تر میعاد کے بانڈز کی خطرہ مانگ پیدا ہو گئی۔ حتیٰ کہ دس سالہ پاکستان انویسٹمنٹ بانڈز کی تجارت مختصر مدت کے سیکیورٹی پیپرز کے مقابلے میں کافی پست سطح پر ہونے کے سبب پیداواری خم اوندھا ہو گیا۔

دوران سال SBP نے باقاعدہ نیلامیوں کا انعقاد کر کے فلوئنگ ریٹ بانڈز کے لیے مارکیٹ کی ترقی کی مسلسل کوشش کی۔ مرکزی بینک نے base ریٹ (6M ٹریژری بلز پیداوار) کے اوپر 70 سے 75 bps کریڈٹ اسپریڈ پر 714 بلین روپے کی مجموعی رقم قبول کی۔ دوسری جانب حکومت نے 314 بلین روپے کے اجارہ سکک میچور کیے جس کے سبب شریعت کی تعمیل پر مبنی مواقع کی کمی ہو گئی۔ تاہم گردش قرضے کے لیے رقم کی فراہمی کے لیے SBP نے خاص طور پر اسلاک بینکوں کے لیے base ریٹ کے اوپر 80 bps پر 200 بلین روپے کے پاکستان انرجی سکک متعارف کرائے۔ علاوہ ازیں، SBP کی طرف سے باقاعدہ OMOs کے انعقاد کی بدولت پوری مدت کے دوران نقدیت کی صورتحال تسلی بخش رہی۔

فنڈ کی کارکردگی

زیر جائزہ مدت کے دوران فنڈ کا ایک سال پر محیط منافع 7.84 فیصد تھا جبکہ مقررہ معیار 11.33 فیصد تھا۔
فنڈ کی ویڈیو ایورج میچورٹی (WAM) 1.8 سال تھی۔ فنڈ کی زیادہ تر سرمایہ کاری نقد اور ٹریڈری بلز میں کی گئی۔
اختتام مدت پر فنڈ کی سرمایہ کاری 42.8 فیصد نقد میں، 33.4 فیصد ٹریڈری بلز میں اور 22.5 فیصد ٹرم فنانس سرٹیفکیٹس (TFCs) میں تھی۔

30 جون 2019ء کو فنڈ کے net اثاثہ جات 698 ملین روپے تھے جو 30 جون 2018ء (1,350 ملین روپے) کے مقابلے میں 48.29 فیصد کمی ہے۔

30 جون 2019ء کو net اثاثہ جاتی قدر (NAV) فی یونٹ 53.1512 روپے تھی جو 30 جون 2018ء کی ابتدائی NAV (55.8399) روپے فی یونٹ کے مقابلے میں 2.6887 روپے فی یونٹ کمی ہے۔

مستقبل کا منظر

مرکزی بینک کی طرف سے پالیسی میں ترمیمات کے نتیجے میں کلاں معاشیاتی یکجائی عمل میں آئے گی، چنانچہ معاشی ترقی چھوٹے اعداد تک محدود رہے گی۔ حکومت کی اختیار کردہ سختی پر مبنی پالیسیوں کے پیش نظر آئی ایم ایف نے مالی سال 2020ء میں پاکستان کی GDP کی ترقی میں 2.5 فیصد سست روی کی پیش گوئی کی ہے۔ صنعتی ترقی، خاص طور پر درآمدات سے چلنے والے صرف پر مبنی شعبہ جات میں ترقی جمود کا شکار رہے گی۔ تاہم برآمدات سے چلنے والی صنعتی کمپنیوں سے کچھ مہلت ملے گی کیونکہ حکومت نے ان میں ترغیبات متعارف کرائی ہیں، اور توانائی کی فراہمی میں اضافے کی بدولت ان کی رکاوٹیں بھی دور ہوتی ہیں۔

ادائیگی کی توازن کی پریشانیوں فی الوقت ختم ہو گئی ہیں کیونکہ مرکزی حکومت کی طرف سے پالیسی اقدامات کے بعد CAD ترمیم سے گزر کر معقول سطح تک آ گیا ہے۔ سال کا آغاز بہت حوصلہ افزا رہا کیونکہ جولائی 2019ء کا CAD سال گزشتہ کی مماثل مدت کے CAD (2,000 ملین ڈالر) کے مقابلے میں سکڑ کر 600 ملین ڈالر رہ گیا تھا۔ ہمارے بہت محتاط مفروضوں پر مبنی پیشن گوئی ہے کہ CAD کی سطح GDP کے 2.7 فیصد تک پہنچ کر رک جائے گی۔ ہم نے خام تیل کی قیمتیں 70 ڈالر فی BBL کی سطح پر فرض کی ہیں جو موجودہ طور پر 60 ڈالر فی BBL کے آس پاس ہے۔ ایک آئی ایم ایف پروگرام پر دستخط کرنے کے بعد پاکستان بین الاقوامی مواقع کو استعمال کر کے اپنی مجموعی مالیات کے لیے رقم فراہم کر سکے گا۔ سعودی عرب کی طرف سے تیل کی ملتی شدہ سہولت بھی غیر ملکی زرمبادلہ کے ذخائر کو مختصر المیعاد مطلوبہ توقف فراہم کرے گی۔ ہمیں توقع ہے کہ موجودہ مالی سال کے اختتام تک غیر ملکی زرمبادلہ کے ذخائر بڑھ کر 13 بلین ڈالر تک پہنچ جائیں گے (1.8 ضربے زیادہ)۔ روپے کے توازن کی سطحوں (جون 2019ء REER: 91) تک ہم آہنگ ہونے اور CAD کے پائیدار حد میں ہونے کی وجہ سے روپے کی قدر میں اس کے ماضی کے اوسط کی بنیاد پر اب معمولی کمی ہونی چاہیے۔

مالی سال 2020ء میں افراط زر کا اوسط متوقع طور پر 11.7 فیصد بڑھے گا جو سال گزشتہ کے دوران 7.3 فیصد تھا۔ افراط زر میں اس اضافے کے متعدد عوامل ہیں۔ اول، حکومت یوٹیلٹی کی پوری لاگت وصول کرنے کا ارادہ کر رہی ہے جس کے نتیجے میں یوٹیلٹی کی قیمت میں ترمیمات ہوں گی۔ دوم، متعدد صنعتوں کو فراہم کردہ ٹیکس استثناءات واپس لے لی گئی ہیں جس کے نتیجے میں قیمتوں میں اضافہ ہوا ہے۔ آخری یہ کہ ہم نے مالی سال کے اختتام تک 1 ڈالر کو 170 روپے کے برابر فرض کیا ہے جبکہ خام تیل کو 70 ڈالر فی BBL فرض کیا ہے جس سے مجموعی صارفی قیمت کا انڈیکس (CPI) بلند سطح پر رہے گا۔ علاوہ ازیں، ہمیں اُمید ہے کہ اشیائے خورد و نوش اور توانائی کے علاوہ والے شعبوں (NFNE) سے ظاہر ہونے والی بنیادی افراط زر کا اوسط زیر بحث سال

کے لیے 10.0 فیصد ہوگا۔ ہم سمجھتے ہیں کہ انٹریسٹ کی موجودہ حقیقی شرح متوقع افراط زر کی ضرورت پوری کرنے کے لیے کافی ہوگی، چنانچہ، عمومی طور پر انٹریسٹ کی شرحوں میں مزید اضافہ متوقع نہیں ہے۔ تاہم توقع سے زیادہ افراط زر یا مالیاتی گوشواروں میں کسی تنزلی کے نتیجے میں مانیٹری پالیسی میں معمولی سختی عمل میں آسکتی ہے۔

مالیاتی جہت میں حکومت مالیاتی خسارے کو GDP کے 7.4 فیصد تک محدود کرنے کا ارادہ کر رہی ہے۔ اگرچہ مالیاتی خسارے کے حتمی ہدف میں ارتقاء ہو سکتا ہے لیکن حکومت کو بنیادی خسارے کو GDP کے 0.6 فیصد پر محدود کرنے کی آئی ایم ایف کی بنیادی شرط کو پورا کرنا ہے۔ اس مقصد کے لیے فیڈرل بورڈ آف ریونیو (FBR) 5.5 ٹریلین روپے (35 فیصد YoY زیادہ) ٹیکس وصولی کا عزم بلند کیے ہوئے ہے۔ پارلیمنٹ میں پیش کردی بجٹ میں 600 سے 700 بلین روپے کے ٹیکس اقدامات کی تجویز دی گئی ہے جبکہ باقی رقم FBR کی کوششوں اور معاشی ترقی پر منحصر رکھی گئی ہے۔ اخراجات کی جہت میں حکومت کرنٹ اخراجات میں سادگی کے اقدامات کا عزم کر رہی ہے تاہم 1.7 ٹریلین روپے (40 فیصد YoY زیادہ) کے ایکسپینڈیچر (یعنی معاشی توسیع پر مبنی) پبلک سیکٹر ڈولپمنٹ پروگرام (PSDP) کا منصوبہ بنا رہی ہے۔ ہم ٹیکس وصولی کی ہدف کو بے حد مثبت خیالی پر مبنی سمجھتے ہوئے 300 سے 400 بلین روپے کی کمی کی توقع کر رہے ہیں جس کے نتیجے میں ترقیاتی خرچ پر ضرب پڑے گی۔

INDEPENDENT AUDITOR'S REPORT

To the Unit holders of Pakistan Income Enhancement Fund

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of Pakistan Income Enhancement Fund (the Fund), which comprise the statement of assets and liabilities as at June 30, 2019, and the income statement, statement of comprehensive income, statement of movement in unit holders' fund and cash flow statement for the year then ended, and notes to and forming part of the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Fund as at June 30, 2019, and of its financial performance, its cash flows and transactions for the year then ended in accordance with the accounting and reporting standards as applicable in Pakistan.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) as applicable in Pakistan. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Fund in accordance with the International Ethics Standards Board for Accountants' *Code of Ethics for Professional Accountants* as adopted by the Institute of Chartered Accountants of Pakistan (the Code) and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Following is the key audit matter:

S. No.	Key Audit Matter	How the matter was addressed in our audit
1	Net Asset Value (NAV) (Refer notes 4 and 5 to the annexed financial statements)	
	Balances with banks and Investments constitute the most significant component of the NAV. Balances with banks of the Fund as at June 30, 2019 aggregated to Rs 473.804 million and Investments amounted to Rs 618.024 million.	Our audit procedures included the following:
	The existence of balances with banks and the existence and proper valuation of Investments for the determination of NAV of the Fund as at June 30, 2019 was considered a high risk area and therefore we considered this as a key audit matter.	<ul style="list-style-type: none">tested the design and operating effectiveness of the key controls for valuation of investments;obtained independent confirmations for verifying the existence of the investment portfolio and bank balances as at June 30, 2019 and reconciled them with the books and records of the Fund. Where such confirmations were not available, alternate audit procedures were performed;

Other Matter

The financial statements of the Fund for the year ended June 30, 2018 were audited by another firm of Chartered Accountants who had expressed an unmodified opinion thereon vide their report dated September 14, 2018.

Other Information

Management is responsible for the other information. The other information comprises the information included in the Annual Report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Board of Directors of the Management Company for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting and reporting standards as applicable in Pakistan, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Board of directors of the management company is responsible for overseeing the Fund's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs as applicable in Pakistan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A.F. FERGUSON & CO.

As part of an audit in accordance with ISAs as applicable in Pakistan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with board of directors of the management company regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide board of directors of the management company with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with board of directors of the management company, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

Based on our audit, we further report that in our opinion the financial statements have been prepared in all material respects in accordance with the relevant provisions of the Non-Banking Finance Companies and Notified Entities Regulations, 2008.

The engagement partner on the audit resulting in this independent auditor's report is **Noman Abbas Sheikh**.

- International Financial Reporting Standards (IFRS's) issued by the International Accounting Standards Board (IASB) as notified under the Companies Act, 2017;
- Provisions of and directives issued under the Companies Act, 2017 along with part VIIIA of the repealed Companies Ordinance, 1984; and

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2019

2.3 Standards, interpretations and amendments to published accounting reporting standards that are effective in the current year:

Effective from July 01, 2018, the Fund has adopted IFRS 9: "Financial Instruments" which has replaced IAS 39: "Financial Instruments: Recognition and Measurement". The standard addresses recognition, classification, measurement and derecognition of financial assets and financial liabilities. The standard has also introduced a new impairment model for financial assets which requires recognition of impairment charge based on 'expected credit losses' (ECL) approach rather than 'incurred credit losses' approach, as previously given under IAS 39. However, the SECP vide its letter dated November 21, 2017, has deferred the applicability of requirements relating to impairment for debt securities on mutual funds till further instructions. Currently, the Asset Management Companies are required to continue to follow the requirements of Circular 33 of 2012 for impairment of debt securities. Furthermore, the ECL has an impact on all other assets of the Fund which are exposed to credit risk. However, majority of the assets of the Fund other than debt securities (for which there is a separate criteria as mentioned above) that are exposed to credit risk pertain to counter parties which have high credit rating. Therefore, the management believes that the impact of the ECL would be very minimal and hence, the same has not been accounted for in these financial statements.

IFRS 9 has provided a criteria for debt securities whereby debt securities are either classified as (a) amortised cost or (b) at fair value through other comprehensive income "(FVOCI)" or (c) at fair value through profit or loss (FVPL) based on the business model of the entity. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions. Furthermore, the collection of contractual cash flows for debt securities is only incidental to achieving the Fund's business model's objective .

IFRS 9 requires securities managed as a portfolio or group of assets and whose performance is measured on a fair value basis to be recognized as FVPL. The management considers its investment in debt securities being managed as a group of assets and hence has classified them as FVPL. Accordingly, the Fund's investment portfolio is classified as fair value through profit or loss and other financial assets which are held for collection continue to be measured at amortised cost. The Funds investment in Pakistan Investment Bonds (PIB) and Commercial Papers which were previously classified as "Available-for-sale" and "Loans and receivables" respectively under IAS 39 have been classified as 'at fair value through profit or loss' and carried at fair value under level 2.

The Fund has adopted modified retrospective restatement approach for adopting IFRS-9 and accordingly, all changes arising on adoption of IFRS-9 have been adjusted at the beginning of the current year.

The effect of this change in accounting policy is as follows:

	As at June 30, 2018 (as previously stated)	Change	As at July 1, 2018 (Restated)	As at June 30, 2019
-----Rupees in '000-----				
Impact on Statement of Assets and Liabilities				
Investments - 'Available for sale'	811	(811)	-	-
Investments - 'Loans and receivables'	118,295	(118,295)	-	-
Investments - 'At fair value through profit or loss'	556,552	119,106	675,658	618,024
Impact on Statement of Unitholders' fund				
Unrealised appreciation / (diminution)				
on 'Available-for-sale' investments	(40)	40	-	-
Undistributed income	145,951	(40)	145,911	95,207

There is no impact of this change in accounting policy on the income statement, statement of comprehensive income and cash flow statement of the Fund as a result of adoption of IFRS-9.

There are no other standards, amendments to standards or interpretations that are effective for annual periods beginning on July 1, 2018 that have a material effect on the financial statements of the Fund.

2.4 Standards, interpretations and amendments to published accounting and reporting standards that are not yet effective

The following amendments to published accounting and reporting standards would be effective from the dates mentioned below against the respective amendments:

Amendments	Effective date (accounting periods beginning on or after)
- IFRS 9 - 'Financial instruments' (amendment)	January 1, 2019
- IAS 1 - 'Presentation of financial statements' (amendment)	January 1, 2020
- IAS 8 - 'Accounting policies, change in accounting estimates and errors' (amendment)	January 1, 2020

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2019

The Management is currently in the process of assessing the full impact of these amendments on the financial statements of the Fund.

There are certain other standards, amendments and interpretations that are mandatory for the Fund's accounting period beginning on or after July 1, 2019 but are considered not to be relevant or will not have any significant effect on the Fund's operations and are, therefore, not disclosed in these financial statements.

2.5 Critical accounting estimates and judgments

The preparation of the financial statements in conformity with the accounting and reporting standards as applicable in Pakistan requires the use of certain critical accounting estimates. It also requires the management to exercise its judgment in the process of applying the Fund's accounting policies. Estimates and judgments are continually evaluated and are based on historical experience, including expectations of future events that are believed to be reasonable under the circumstances. Revisions to accounting estimates are recognised in the year in which the estimates are revised if the revision affects only that year, or in the year of revision and future years if the revision affects both current and future years.

The area where various assumptions and estimates are significant to the Fund's financial statements or where judgment was exercised in application of accounting policies primarily related to classification, valuation and impairment of fixed assets (notes 3.2 and 5), provision for SWWF (note 12.1), provision for Federal Excise Duty (note 12.2) and provision for taxation (notes 3.11 and 15).

2.6 Functional and presentation currency

Items included in the financial statements are measured using the currency of the primary economic environment in which the Fund operates. These financial statements are presented in Pakistani Rupees which is the Fund's functional and presentation currency.

3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the year except for the change in accounting policy as explained in note 2.3 to these financial statements.

3.1 Cash and cash equivalents

These comprise balances with banks in savings and current accounts and other short-term highly liquid investments with original maturities of three months or less.

3.2 Financial assets

3.2.1 Classification and subsequent measurement

Debt instruments

IFRS 9 has provided a criteria for debt securities whereby these debt securities are either classified as:

- amortised cost
- at fair value through other comprehensive income "(FVOCI)"
- at fair value through profit or loss (FVTPL) based on the business model of the entity

However, IFRS 9 also provides an option whereby securities managed as a portfolio or group of assets and whose performance is measured on a fair value basis, to be recognized at FVTPL. The fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions. Therefore the management considers its investment in debt securities as being managed as a group of assets and hence has classified them as FVTPL.

Equity instruments

Equity instruments are instruments that meet the definition of equity from the issuer's perspective and are instruments that do not contain a contractual obligation to pay and that evidence a residual interest in the issuer's net assets.

All equity investments are required to be measured in the "Statement of Assets and Liabilities" at fair value, with gains and losses recognised in the "Income Statement", except where an irrevocable election has been made at the time of initial recognition to measure the investment at FVOCI. The management considers its investment in equity securities being managed as a group of assets and hence has classified them as FVPL. Accordingly, the irrevocable option has not been considered.

The dividend income on equity securities classified under FVPL is recognised in the Income Statement.

The Fund can only invest in equity securities for the purpose of spread transactions.

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2019

3.2.2 Impairment

The Fund assesses on a forward-looking basis the expected credit losses (ECL) associated with its financial assets (other than debt instruments as per Circular 33 of 2012) carried at amortised cost and FVOCI. The Fund recognises a loss allowance for such losses at each reporting date. The measurement of ECL reflects :

- an unbiased and probability-weighted amount that is determined by evaluating a range of possible outcomes;
- the time value of money; and
- reasonable and supportable information that is available without undue cost or effort at the reporting date about past events, current conditions and forecast of future economic conditions.

The 12 months ECL is recorded for all financial assets in which there is no significant increase in credit risk from the date of initial recognition, whereas a lifetime ECL is recorded for all remaining financial assets.

3.2.3 Impairment loss on debt securities

Provision for non-performing debt securities is made on the basis of time-based criteria as prescribed by the SECP and based on the management's assessment made in line with its provisioning policy approved by the Board of Directors of the Management Company in accordance with the guidelines issued by the SECP. Impairment losses recognised on debt securities can be reversed through the Income Statement.

As allowed by the SECP, the Management Company may make provision against debt securities over and above the minimum provision requirement prescribed by the SECP, in accordance with the provisioning policy duly approved by the Board of Directors.

3.2.4 Regular way contracts

All regular way purchases and sales of financial assets are recognised on the trade date i.e. the date on which the Fund commits to purchase or sell the asset.

3.2.5 Initial recognition and measurement

Financial assets are recognised at the time the Fund becomes a party to the contractual provisions of the instruments. These are initially recognised at fair value plus transaction costs except for financial assets carried 'at fair value through profit or loss'. Financial assets carried 'at fair value through profit or loss' are initially recognised at fair value and transaction costs are recognised in the Income Statement.

3.2.6 Derecognition

Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or have been transferred and the Fund has transferred substantially all risks and rewards of ownership. Any gain or loss on derecognition of financial assets is taken to the Income Statement.

3.2.7 Derivatives

Derivative instruments are initially recognised at fair value and subsequent to initial measurement each derivative instrument is remeasured at fair value and the resultant gain or loss is recognised in the Income Statement.

3.3 Financial liabilities

All financial liabilities are recognized at the time when the Fund becomes a party to the contractual provisions of the instrument. These are initially recognized at fair value and subsequently stated at amortized cost using effective interest method. A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expired. Any gain or loss on derecognition of financial liabilities is taken to the Income Statement. Financial liabilities include payable to the Management Company and other liabilities.

3.4 Offsetting of financial assets and financial liabilities

Financial assets and financial liabilities are offset and the net amount is reported in the 'Statement of Assets and Liabilities' when there is a legally enforceable right to set off the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

3.5 Provisions

Provisions are recognised when the Fund has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the obligation can be made. Provisions are regularly reviewed and adjusted to reflect the current best estimate.

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2019

3.6 Net asset value per unit

The net asset value (NAV) per unit, as disclosed on the Statement of Assets and Liabilities, is calculated by dividing the net assets of the Fund by the number of units in circulation at the year end.

3.7 Issue and redemption of units

Units issued are recorded at the offer price, determined by the Management Company for the applications received by the Management Company / distributors during business hours on that day. The offer price represents the Net Asset Value (NAV) per unit as of the close of the business day, plus the allowable sales load and provision of any duties, charges and transaction costs, if applicable. The sales load is payable to the Management Company / distributors.

Units redeemed are recorded at the redemption price applicable to units for which the Management Company / distributors receive redemption application during business hours of that day. The redemption price is equal to NAV as of the close of the business day, less an amount as the Management Company may consider to be an appropriate provision of duties, charges and transactions costs, if applicable.

3.8 Element of income / (loss) and capital gains / (losses) included in prices of units issued less those in units redeemed

Element of income represents the difference between net asset value per unit on the issuance or redemption date, as the case may be, of units and the net assets value per unit at the beginning of the relevant accounting period. Further, the element of income is a transaction of capital nature and the receipt and payment of element of income is taken to unit holders' fund. However, to maintain the same ex-dividend net asset value of all units outstanding on the accounting date, net element of income contributed on issue of units lying in unit holders fund is refunded on units in the same proportion as dividend bears to accounting income available for distribution.

3.9 Revenue recognition

- Interest income on government securities is recognised on an accrual basis using effective interest method.
- Income on debt securities (including term finance certificates and commercial papers) is recognised on an accrual basis using effective interest method.
- Profit on bank deposits and term deposit receipts is recognised on an accrual basis using effective interest method.
- Gains / (losses) arising on sale of investments are recorded at the date at which the transaction takes place.
- Unrealised gains / (losses) arising on remeasurement of investments classified as 'at fair value through profit or loss' and derivatives are included in the Income Statement in the period in which they arise.
- Profit on margin trading system is recognised on an accrual basis using effective interest method.
- Dividend income is recognised when the Fund's right to receive the same is established.

3.10 Expenses

All expenses including Management fee, Trustee fee, Securities and Exchange Commission of Pakistan fee and allocated expenses are recognised in the Income Statement on an accrual basis.

3.11 Taxation

The income of the Fund is exempt from income tax under clause 99 of Part I to the Second Schedule of the Income Tax Ordinance, 2001 subject to the condition that not less than ninety percent of its accounting income for the year, as reduced by capital gains, whether realised or unrealised, is distributed amongst the unitholders in cash.

The Fund is also exempt from the provisions of section 113 (minimum tax) under clause 11A of Part IV of the Second Schedule of the Income Tax Ordinance, 2001.

3.12 Earnings / (loss) per unit

Earnings / (loss) per unit is calculated by dividing the net income / (loss) of the year after taxation of the Fund by the weighted average number of units outstanding during the year.

Earnings / (loss) per unit (EPU) has not been disclosed as in the opinion of the management, the determination of cumulative weighted average number of outstanding units for calculating EPU is not practicable.

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2019

3.13 Distribution to units holders fund

Distributions to the unit holders are recognised upon declaration and approval by the Board of Directors of the Management Company. Based on the Mutual Funds Association of Pakistan's (MUFAP) guidelines duly consented by the SECP, distribution for the year also includes portion of income already paid on units redeemed during the year.

Distributions declared subsequent to the year end reporting date are considered as non-adjusting events and are recognised in the financial statements of the year in which such distributions are declared and approved by the Board of Directors of the Management Company.

3.14 Foreign currency translation

Transactions denominated in foreign currencies are accounted for in Pakistani Rupees at the exchange rates prevailing at the dates of transactions. Foreign exchange gains and losses resulting from the settlement and from the translation at year end exchange rates for monetary assets and liabilities denominated in foreign currencies are recognised in the Income Statement.

In accordance with Clause (v) of the investment criteria laid down for 'Aggressive Fixed Income Scheme' in Circular no. 7 of 2009, the Fund is required to invest in any security having rating not lower than the investment grade (credit rating of BBB and above). However, as at June 30, 2019, the Fund is non-compliant with the above mentioned requirement in respect of the following investments. The securities were in compliance of the Circular (i.e. investment grade) at the time of purchase and were subsequently downgraded to non investment grade by MUFAP on default by respective issuer in repayment of coupon due on respective dates. The Fund holds 100% provision against such investments as enumerated below:

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2019

- 8.1** As per clause 47(B) of part IV of the Second Schedule to the Income Tax Ordinance, 2001, payments made to collective investment schemes (CISs) are exempt from withholding tax under section 151 and 150. However, during the year ended June 30, 2019, withholding tax on profit on bank balances and profit on debt securities to the Fund was deducted by various withholding agents based on the interpretation issued by FBR vide letter C. no. 1(43) DG (WHT)/2008-VOL.II-66417-R dated 12 May 2015 which requires every withholding agent to withhold income tax at applicable rates in case a valid exemption certificate under section 159(1) issued by the concerned Commissioner of Inland Revenue (CIR) is not produced before him by the withholder. The tax withheld on profit on bank balances and profit on debt securities amounts to Rs. 0.287 million (June 2018: Rs. 0.282 million).

For this purpose, the Mutual Funds Association of Pakistan (MUFAP) on behalf of various mutual funds (including the Funds being managed by the Management Company) had filed a petition in the Honourable Sindh High Court (SHC) challenging the above mentioned interpretation of the Federal Board of Revenue (FBR) which was decided by the SHC in favour of FBR. On January 28, 2016, the Board of Directors of the Management Company passed a resolution by circulation, authorising all CISs to file an appeal in the Honourable Supreme Court through their Trustees, to direct all persons being withholding agents, including share registrars and banks to observe the provisions of clause 47B of Part IV of the Second Schedule to the Income Tax Ordinance, 2001 without imposing any conditions at the time of making any payment to the CISs being managed by the Management Company. Accordingly, a petition was filed in the Supreme Court of Pakistan by the Funds together with other CISs (managed by the Management Company and other Asset Management Companies) whereby the Supreme Court granted the petitioners leave to appeal from the initial judgement of the SHC. Pending resolution of the matter, the amount of withholding tax deducted on profit received by the Fund on profit on bank balances and profit on debt securities has been shown as other receivables as at June 30, 2019 as, in the opinion of the management, the amount of tax deducted at source will be refunded.

Accordingly, the Management Company can now charge actual expenses related to registrar services, accounting, operations and valuation services to the CIS with effect from June 20, 2019.

However, the management company continued to charge expenses at the rate of 0.1 percent of the average annual net assets of the Fund for both the periods i.e. from July 1, 2018 to June 19, 2019 and from June 20, 2019 to June 30, 2019, being lower than actual expenses.

12.1 Provision for Workers' Welfare Fund / Sindh Workers' Welfare Fund

As a consequence of the 18th amendment to the Constitution of Pakistan, in May 2015 the Sindh Workers' Welfare Fund Act, 2014 (SWWF Act) had been passed by the Government of Sindh as a result of which every industrial establishment located in the Province of Sindh, the total income of which in any accounting year is not less than Rs 0.50 million, was required to pay Sindh Workers' Welfare Fund (SWWF) in respect of that year a sum equal to two percent of such income. The matter was taken up by MUFAP with the Sindh Revenue Board (SRB) collectively on behalf of various asset management companies and their CISs whereby it was contested that mutual funds should be excluded from the ambit of the SWWF Act as these were not industrial establishments but were pass through investment vehicles and did not employ workers. The SRB held that mutual funds were included in the definition of financial institutions as per the Financial Institution (Recovery of Finances) Ordinance, 2001 and were, hence, required to register and pay SWWF under the SWWF Act. Thereafter, MUFAP had taken up the matter with the Sindh Finance Ministry to have CISs / mutual funds excluded from the applicability of SWWF. In view of the above developments regarding the applicability of SWWF on CISs/mutual funds, MUFAP recommended that, as a matter of abundant caution, provision in respect of SWWF should be made on a prudent basis with effect from the date of enactment of the SWWF Act, 2014 (i.e. starting from May 21, 2015).

Had the provision for SWWF not been recorded in the financial statements of the Fund for the period from May 21, 2015 to June 30, 2019, the net asset value of the Fund as at June 30, 2019 would have been higher by Re. 0.49 per unit (2018: Re 0.21).

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2019

12.2 Federal Excise Duty and related tax payable

The Finance Act, 2013 enlarged the scope of Federal Excise Duty (FED) on financial services to include Asset Management Companies (AMCs) as a result of which FED at the rate of 16 percent on the remuneration of the Management Company and sales load was applicable with effect from June 13, 2013. The Management Company was of the view that since the remuneration was already subject to provincial sales tax, further levy of FED would result in double taxation which did not appear to be the spirit of the law. Hence, on September 4, 2013 a constitutional petition was filed with the Sindh High Court (SHC) by the Management Company together with various other asset management companies challenging the levy of FED.

With effect from July 01, 2016, FED on services provided or rendered by non-banking financial institutions dealing in services which are subject to provincial sales tax has been withdrawn by the Finance Act, 2016.

During the year ended June 30, 2017, the SHC passed an order whereby all notices, proceedings taken or pending, orders made, duty recovered or actions taken under the Federal Excise Act, 2005 in respect of the rendering or providing of services (to the extent as challenged in any relevant petition) were set aside. In response to this, the Deputy Commissioner Inland Revenue has filed a Civil Petition for leave to appeal in the Supreme Court of Pakistan which is pending adjudication.

In view of the above, the Fund has discontinued making further provision in respect of FED on remuneration of the Management Company with effect from July 1, 2016. However, as a matter of abundant caution, the provision for FED made for the period from June 13, 2013 till June 30, 2016 aggregates to Rs 21.34 million (2018: Rs. 21.34 million) is being retained in these financial statements of the Fund as the matter is pending before the Supreme Court of Pakistan. Had the provision for FED not been made, the net asset value of the Fund as at June 30, 2019 would have been higher by Rs.1.63 (2018: Re 0.88) per unit.

13 CONTINGENCIES AND COMMITMENTS

15 TAXATION

The income of the Fund is exempt from income tax under clause (99) of Part I of the Second Schedule to the Income Tax Ordinance, 2001 subject to the condition that not less than 90% of the accounting income for the year as reduced by capital gains, whether realised or unrealised, is distributed amongst the unit holders as cash dividend. Furthermore, as per Regulation 63 of the Non-Banking Finance Companies and Notified Entities Regulations, 2008, the Fund is required to distribute not less than 90% of its accounting income for the year derived from sources other than capital gains as reduced by such expenses as are chargeable thereon to the unit holders. Since the management has distributed the required minimum percentage of income earned by the Fund for the year ended June 30, 2019 to the unit holders in the manner as explained above no provision for taxation has been made in these financial statements during the year.

The Fund is also exempt from the provisions of Section 113 (minimum tax) under clause 11A of Part IV of the Second Schedule to the Income Tax Ordinance, 2001.

20 FINANCIAL RISK MANAGEMENT

The Fund's objective in managing risk is the protection of unit holders' value. Risk is inherent in the Fund's activities, but it is managed through monitoring and controlling activities which are primarily set up to be performed based on limits established by the Management Company, the constitutive documents of the Fund and the regulations and directives of the SECP. These limits reflect the business strategy and market environment of the Fund as well as the level of the risk that the Fund is willing to accept. The Board of Directors of the Management Company supervises the overall risk management approach within the Fund. The Fund is exposed to market risk, liquidity risk and credit risk arising from the financial instruments it holds.

20.1 Market risk

Market risk is the risk that the fair value or the future cash flows of a financial instrument may fluctuate as a result of changes in market prices.

The Management Company manages the market risk through diversification of the investment portfolio and by following the internal guidelines established by the Investment Committee.

Market risk comprises of three types of risk: currency risk, interest rate risk and other price risk.

20.1.1 Currency risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Fund does not have any financial instrument in foreign currencies and hence is not exposed to such risk.

20.1.2 Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate as a result of changes in market interest rates. As of June 30, 2019, the Fund is exposed to such risk on its balances held with banks, investments in term finance certificates, investment in sukuk certificates and investment in government securities. The Investment Committee of the Fund reviews the portfolio of the Fund on a regular basis to ensure that the risk is managed within the acceptable limits.

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2019

a) Sensitivity analysis for variable rate instruments

As at June 30, 2019, the Fund holds KIBOR based interest bearing term finance and sukuk certificates exposing the Fund to cash flow profit rate risk. In case of 100 basis points increase / decrease in KIBOR on the last repricing date with all other variables held constant, the net assets of the Fund and net income for the year would have been higher / lower by Rs 4.11 million (2018: Rs 1.35 million).

The Fund is also exposed to mark-up rate risk on bank deposits. In case of 100 basis points increase / decrease in KIBOR at year end, the net assets of the Fund and net income for the year would have been higher / lower by Rs 4.74 million (2018: Rs 6.45 million).

b) Sensitivity analysis for fixed rate instruments

As at June 30, 2019, the Fund holds government securities which are classified as at fair value through profit or loss exposing the Fund to fair value interest rate risk. In case of 100 basis points increase in rates announced by Financial Market Association of Pakistan (FMAP) on June 30, 2019, with all other variables held constant, the net assets of the Fund and the net income for the year would have been higher by Rs 2.73 million (2018: higher by Rs 1.74 million).

The composition of the Fund's investment portfolio, KIBOR rates and rates announced by FMAP is expected to change over time. Accordingly, the sensitivity analysis prepared as of June 30, 2019 is not necessarily indicative of the impact on the Fund's net assets of future movements in interest rates.

Yield / interest rate sensitivity position for on-balance sheet financial instruments is based on the earlier of contractual repricing or maturity date and for off-balance sheet instruments is based on the settlement date.

The Fund's interest rate sensitivity related to financial assets and financial liabilities as at June 30, 2019 can be determined as follows:

20.1.3 Price risk

Price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest risk or currency risk) whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting all similar financial instruments traded in the market. The fund does not hold any financial instruments that exposes it to price risk.

20.2 Credit risk

Credit risk represents the accounting loss that would be recognised at the reporting date if counter parties fail completely to perform as contracted.

The Fund is exposed to counter party credit risks on investment in term finance certificates, sukuks, balances with bank and other receivable balances. The credit risk on the fund is limited because the counterparties are financial institutions with reasonably high credit ratings. Investments in Treasury bills are government backed and hence considered as secured.

The Fund has adopted a policy of only dealing with creditworthy counterparties, and obtaining sufficient collateral, where appropriate, as a means of mitigating the risk of financial loss from defaults. This information is supplied by independent rating agencies, where available, and if not available, the Fund uses other publicly available financial information and its own trading records to rate its major customers. The Fund's exposure and the credit ratings of its counterparties are continuously monitored and the aggregate value of transactions concluded is spread amongst approved counterparties.

Credit risk from balances with banks and financial institutions is managed in accordance with the Fund's policy. Investments of surplus funds are made only with approved counterparties and within credit limits assigned to each counterparty. The limits are set to minimise the concentration of risk and therefore mitigate financial loss through potential counterparty failure.

Concentration of credit risk

Concentration of credit risk exists when changes in economic or industry factors similarly affect groups of counterparties whose aggregate credit exposure is significant in relation to the Fund's total credit exposure. The Fund's portfolio of financial instruments is broadly diversified and transactions are entered into with diverse credit-worthy counterparties thereby mitigating any significant concentration of credit risk.

Settlement risk

The Fund's activities may give rise to risk at the time of settlement of transactions. Settlement risk is the risk of loss due to the failure of counter party to honour its obligations to deliver cash, securities or other assets as contractually agreed. Credit risk relating to unsettled transactions in securities is considered to be minimal as the Fund uses brokers with high creditworthiness and the transactions are settled or paid for only upon delivery using central clearing system.

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2019

20.3 Liquidity risk

Liquidity risk is the risk that the Fund may not be able to generate sufficient cash resources to settle its obligation in full as they fall due or can only do so on terms that are materially disadvantageous to the Fund.

The Fund is exposed to daily redemptions at the option of unit holders. The Fund's approach to managing liquidity is to ensure, as far as possible, that the Fund will always have sufficient liquidity to meet its liabilities when due under both normal and stressed conditions. The Fund's policy is, therefore, to invest the majority of its assets in investments that are traded in an active market and can be readily disposed and are considered readily realisable.

As per the NBFC Regulations, the Fund can borrow in the short-term to ensure settlement the maximum limit of which is fifteen percent of the net assets upto 90 days and would be secured by the assets of the Fund.

In order to manage the Fund's overall liquidity, the Fund may also withhold daily redemption requests in excess of ten percent of the units in issue and such requests would be treated as redemption requests qualifying for being processed on the next business day. Such procedure would continue until the outstanding redemption requests come down to a level below ten percent of the units then in issue. The Fund did not withhold any redemptions during the year.

The table below analyses the Fund's financial liabilities into relevant maturity groupings based on the remaining period at the balance sheet date to the contractual maturity date. The amounts in the table are the contractual undiscounted cash flows.

21 FAIR VALUE OF FINANCIAL INSTRUMENTS

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Consequently, differences can arise between carrying values and the fair value estimates.

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2019

Underlying the definition of fair value is the presumption that the Fund is a going concern without any intention or requirement to curtail materially the scale of its operations or to undertake a transaction on adverse terms.

Financial assets which are tradable in an open market are revalued at the market prices prevailing on the statement of assets and liabilities date. The estimated fair value of all other financial assets and liabilities is considered not to be significantly different from the respective book values.

Fair Value Hierarchy

International Financial Reporting Standard 13, 'Fair Value Measurement' requires the Fund to classify assets using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2: inputs other than quoted prices included within level 1 that are observable for the asset or liability either directly (i.e. as prices) or indirectly (i.e. derived from prices); and

Level 3: inputs for the asset or liability that are not based on observable market data (i.e. unobservable inputs).

As at June 30, 2019, the Fund held the following financial instruments measured at fair values:

22 UNIT HOLDERS' FUND RISK MANAGEMENT

The unit holders' fund is represented by redeemable units. These units are entitled to dividends and to payment of a proportionate share based on the Fund's Net Asset Value per unit on the redemption date. The relevant movements are shown on the 'Statement of Movement in Unit Holders' Fund'.

The Fund has no restriction on the subscription and redemption of units. As required under the NBFC Regulations, every open end scheme shall maintain fund size (i.e. net assets of the Fund) of Rs 100 million at all times during the life of the scheme. The Fund has historically maintained and complied with the requirement of minimum fund size at all times.

The Fund's objectives when managing unit holders' funds are to safeguard its ability to continue as a going concern so that it can continue to provide returns to the unit holders and to maintain a strong base of assets to meet unexpected losses or opportunities.

In accordance with the risk management policies as stated in note 20, the Fund endeavours to invest the subscriptions received in appropriate investment avenues while maintaining sufficient liquidity to meet redemptions, such liquidity being augmented by disposal of investments or short-term borrowings, where necessary.
